GOVERNMENT OF ASSAM
ORDERS BY THE GOVERNOR
DEPARTMENT OF HOUSING AND URBAN AFFAIRS

NOTIFICATION

The 6th March, 2023

ECF No. 282098/2023/95.- In exercise of the powers conferred by the section 9 and sub-section (1) of section 10 of the Assam Town & Country Planning Act.1959 (as amended) and (Assam Act II of 1960) read with sub-rule (1) of Rule 3 of the Assam Town and Country Planning (Publication of Master Plan and Zoning Regulations) Rules 1962, the Governor of Assam is pleased to publish the following notice regarding the publication of Draft Master plan for Umrangso-2042.

Notice for the Publication of Draft Master Plan for Umrangso

1. It is notified that the Draft Master plan for Umrangso prepared by the Directorate of Town & Country Planning, Assam, under section 9 of the Assam Town & Country Planning Act 1959 (As amended), as described in the schedule below is hereby published.
2. Any person or persons affected by the Draft Master plan may submit their objection or opinion in writing to the Director, Town & Country Planning, Dispur, Guwahati-6 within two months from the date of publication.
3. The Draft Master plan for Umrangso with all relevant papers and maps may be inspected free of Cost during office hours at the Office the Director, Town & Country Planning, Assam, Dispur, Guwahati-6, the Deputy Director, Town & Country Planning, District Office- Diphu, Karbi Anglong, office of the Assistant Director, Town and Country Planning, Haflong, the Circle office, Umrangso Revenue Circle, Umrangso, Office of the Chairman, Umrangso Municipal Board, Umrangso. Copies of the Draft Master plan for Umrangso are available at the office of the Deputy Director, Town & Country Planning, Diphu, Karbi Anglong for sale on payment.

SCHEDULE-I**A. SITUATION AND AREA: -**

District: Dima Hasao

Master Plan area: 47.23 sq. km.

Revenue Area included in the Final Master Plan of Umrangso

Plan Period – 2042

1. UMRANGSO Town Area**2. Other villages included in the proposed Master Plan for UMRANGSO:**

| | | |

Chapter 1: INTRODUCTION TO MASTER PLAN AREA

1.1 Location, regional setting, brief history of the town and surrounding

Umrangso is one of the four towns of Dima Hasao (earlier North Cachar Hills District), the others being Haflong (district headquarter), Mahur and Maibong. It is a part of “Switzerland of the East” as adoringly described by the visitor to the place. Umrangso town is named after the River “Umrang” which flow along the west side of the Town. The “Umrangso” river has two Dams Umrang and Khandong presently operated by NEEPCO for Hydro Electric project. River “Umrang” is tributary of Kopili. Umrangso is an elegant hill tract of Dima Hasao and is endowed with flora and fauna of great varieties. It is covered with the herbs, shrubs, climbers and grasses which impart a unique vegetative feature to the region. Umrangso is one of the Industrial town in the district, there is a renowned company such as Dalmia Bharat Cement Ltd. The Umrangso Town is notified in 1990. The Umrangso Town can be described as a small museum of multi ethnicity where different castes and communities comprising Karbi, Dimasa, Hmar, Nepali, Bengali, Assamese, Bihari and other indigenous Tribes. Umrangso Town situated at the border of Assam and Meghalaya in the District of Dima Hasao (earlier N.C Hills), it is 240kilometer south east of Guwahati, the state capital, 112 kilometer to the north of Haflong the District head quarter.

Historical Background

Umrangso is named after the river “Umrang”. The Umrangso Town was shifted from the border of Assam and Meghalaya and it was named as Garampani as theKopili Hydro Electric Project NEEPCO Ltd. came and build the Dam and the old Garampani was totally submerge and it was shifted to the present Umrangso Town since 50 (Fifty) year ago.

Figure 1.1 Location Map of Umrangso Town**1.2 Climate**

The area experiences sub-tropical and humid climate. The weather out here in the wet season is warm and mostly cloudy and the dry season is comfortable and mostly clear. Over the course of the year, the temperature typically varies from 41°F to 85°F and is rarely below 37°F or above 91°F. The best times of year to visit Dima Hasao is in winter. For warm-weather activities best time are from late February to mid-April and from mid-October to mid-November. Total annual rainfall in Dima Hasao is 1,145 mm.

Topography

The districts plateau are an extension of the Indian Plate (The Peninsular Block) in the Northeast India. This area receives maximum rainfall from the Southwest summer Monsoon from June through September. Numerous rivers and tributaries flow in these districts such as the Umrang, Longkru, Kopili, etc. The district is bounded by Karbi Anglongon the east and Nagaon District on the north, Meghalaya district on the west, Cachar district on the south. The district is located between 25.51357°N 92.73704°E.

Flora and fauna

Currently, Dima Hasao has three reserve forests —

- Langtingmupa Reserve Forest (491.78 sq km),
- Khrungming Reserve Forest (122.88 sq km) and
- Borail Reserve Forest (48.50 sq km).

The important forest types found in the District are: Moist semi-evergreen forests, Moist Mixed Deciduous forests, Riverain Type and Miscellaneous type with scattered pure or mixed patches of bamboos. These forest areas are natural museums of living giant trees, a treasure house of rare, endemic and endangered species, a dispensary of medicinal plants, a garden for Botanists, a gene bank for economically important organisms, a paradise for nature lovers and a laboratory for environmentalists. Threatened species in the area include Asian elephant, Bengal tiger, Clouded leopard and Leopard, Hoolock gibbon, Pangolin, Porcupine Slow loris etc.

1.3 Geography

The district headquarters are located at Haflong. Dima Hasao district occupies an area of 4,888 square kilometres (1,887 sq mi). It is the second largest district of Assam after Dima Hasao. Dima Hasao District is surrounded by Karbi Anglong district and Nagaland on North-East, Manipur on East, Nagaon (Hojai) District on North, West Karbi Anglong district on North-West, Meghalaya on West and Cachar district on South.

NATURAL RESOURCES :

AGRICULTURE :

The district is basically an agricultural district. Different types of agricultural crops are cultivated among which paddy is the main crop. Except for the valleys, the people follow the settled system of cultivation.

ROADS AND COMMUNICATION :

The district is well connected with other districts through various routes. On the north it is covered by NH-36 and on the east by NH-39. The internal routes are covered by the P.W.D.

- Road distance from Guwahati to Umrangso (via NH37) : 249 KM

RAILWAYS:

There are no direct train connecting Umrangso. The nearest railhead is Lanka, which is around 70 km from Umrangso.

AIRPORTS:

There is no airport in the district. The nearest airport is in Silchar which is around 95 km away from Haflong.

INDUSTRIES:**NEEPCO - Kopili Hydro Electric Project**

A government of India enterprise, located in the Dima Hasao district (formerly known as North Cachar Hills district) near the Assam-Meghalaya border, the hot spring of Garampani is now lost in the dammed water of Kopili river after completion of Kopili Hydro Electric Project.[2] The Kopili Hydro Electric Project was the maiden venture of NEEPCO when it came into existence in 1976.

Vinay Cement

Vinay Cements was set up in 1989 at a capital cost of ₹270 million. At the time of commissioning, it was one of the largest private sector investments in the North-East region. The plant uses rotary technology with a four stage pre-heater and fourth generation grate cooler with current installed capacity of 0.24 million tons per annum. In its category, it has consistently been among the top three manufacturers of cement since its inception. In 2004 it became a 100% debt-free company. In 2006–2007 it has reported revenues of ₹488 million and an earnings before interest, taxes, depreciation and amortization (EBIDTA) of ₹117 million. With a view to consolidate the group companies and provide greater shareholder value, it has recently initiated the process of acquiring RCL Cement in an all-stock deal.

- NECEM Cements Limited (1989)
- RCL (1999),
- Calcom (2007)
- Dalmia cement factory (2011).

TOURISM:

Dima Hasao is one of the three hill districts of Assam with the Borail Range and Shillong Plateau being prominent features of the topography. This renders the district a rugged and hilly terrain which may present logistical challenges but more than recompensates for that with beautiful mountains, a pleasant climate unlike the steamy plains, a multitude of scenic waterfalls, pretty valleys, tranquil lakes, and a bewildering mosaic of tribal cultures that define its cultural landscape which makes it ideal for tourism, adventure, and leisure.

The proposed Master plan would incorporate the revenue limits of the UMRANGSO Town Committee areas as well the neighbouring villages. The town located on the major Asian Highway passing through the town, making it potential development centre for the services. The towns UMRANGSO and region together can serve the population of over 1 lakh in next 50 years. The support for the railway infrastructure in future would be needed to improve the economic potential.

The region is prone to floods, flash floods in the plains and terrain regions though managed by the irrigation departments needs to have all weather road connectivity. Improvement in public transport, regional commercial linkages and tourist flow would boost the economic activities. The promotion and protection of the tribal culture and ethnicity of the communities are important components of the Dima Hasao district. The regional growth would need socio-economic as well as cultural assimilation of the locals to the opportunity.

Regional improvement in the regional infrastructure, social amenities and industrial investment would be key to development of the towns important for the district. The advantage posed by the Asian Highway is immense and sustainable economic and environmental ways must be provided to the region to harness the development potentials.

1.4 Proposed Master Plan Area

The master plan for the town has been proposed to include the town and neighbouring villages. The specific plan can be made inclusive of town and continuant villages in order to achieve organic development. The projects and proposals would include total planning areas. The following locations are now part of the planning area;

| Name | No_HouseHold | Total_Population |
|----------------------------|--------------|------------------|
| Umrangso (TC) | 2401 | 10376 |
| Choto Larpheng | 50 | 256 |
| Choto Langlai | 18 | 96 |
| Choto Tungkrang | 12 | 57 |
| Krungthai | 27 | 142 |
| Dorbin | 33 | 183 |
| MungloiPhonglo | 11 | 62 |
| Dithur | 49 | 258 |
| Longmaiklu (Longmaklu) | 38 | 253 |
| Tuijonte | 30 | 146 |
| Disabra | 40 | 211 |
| Umrangso (Umrangso 19 Km.) | 85 | 442 |
| Dithur Tea Garden | 134 | 494 |

The habitations having continuity, geographical proximity and economically integrated has been made now part of the Urban Area henceforth to be termed as '**UMRANGSO MASTER PLAN AREA**'. This is proposed limit of the planning area not interfering in the functioning of the urban local bodies and respective panchayats.

1.5 Need for Master Plan

The needs for the development for the smaller towns and villages have been felt by all given the improvement and aspiration of the people. The town committee as per the policy directions by the Government of Assam and Government of India wishes to participate in the development of Dima Hasao. The Autonomous Council have wished and directed the towns committee and municipal board to prepare the Master Plan to fulfil the aspiration and vision of leaders and people. The inspiration of the current chairmen, Autonomous Council, MLA and MPs of the region is important for the achievement of the mile stones.

The demographic growth of the region, the need for infrastructure and sustained development of the Dima Hasaodistrict the proposed Master Plan Area would be ideal and sufficient for the development of town. The region would be required to have developed economy, infrastructure and cultural ethos led by the clusters important for the development of villages and its people.

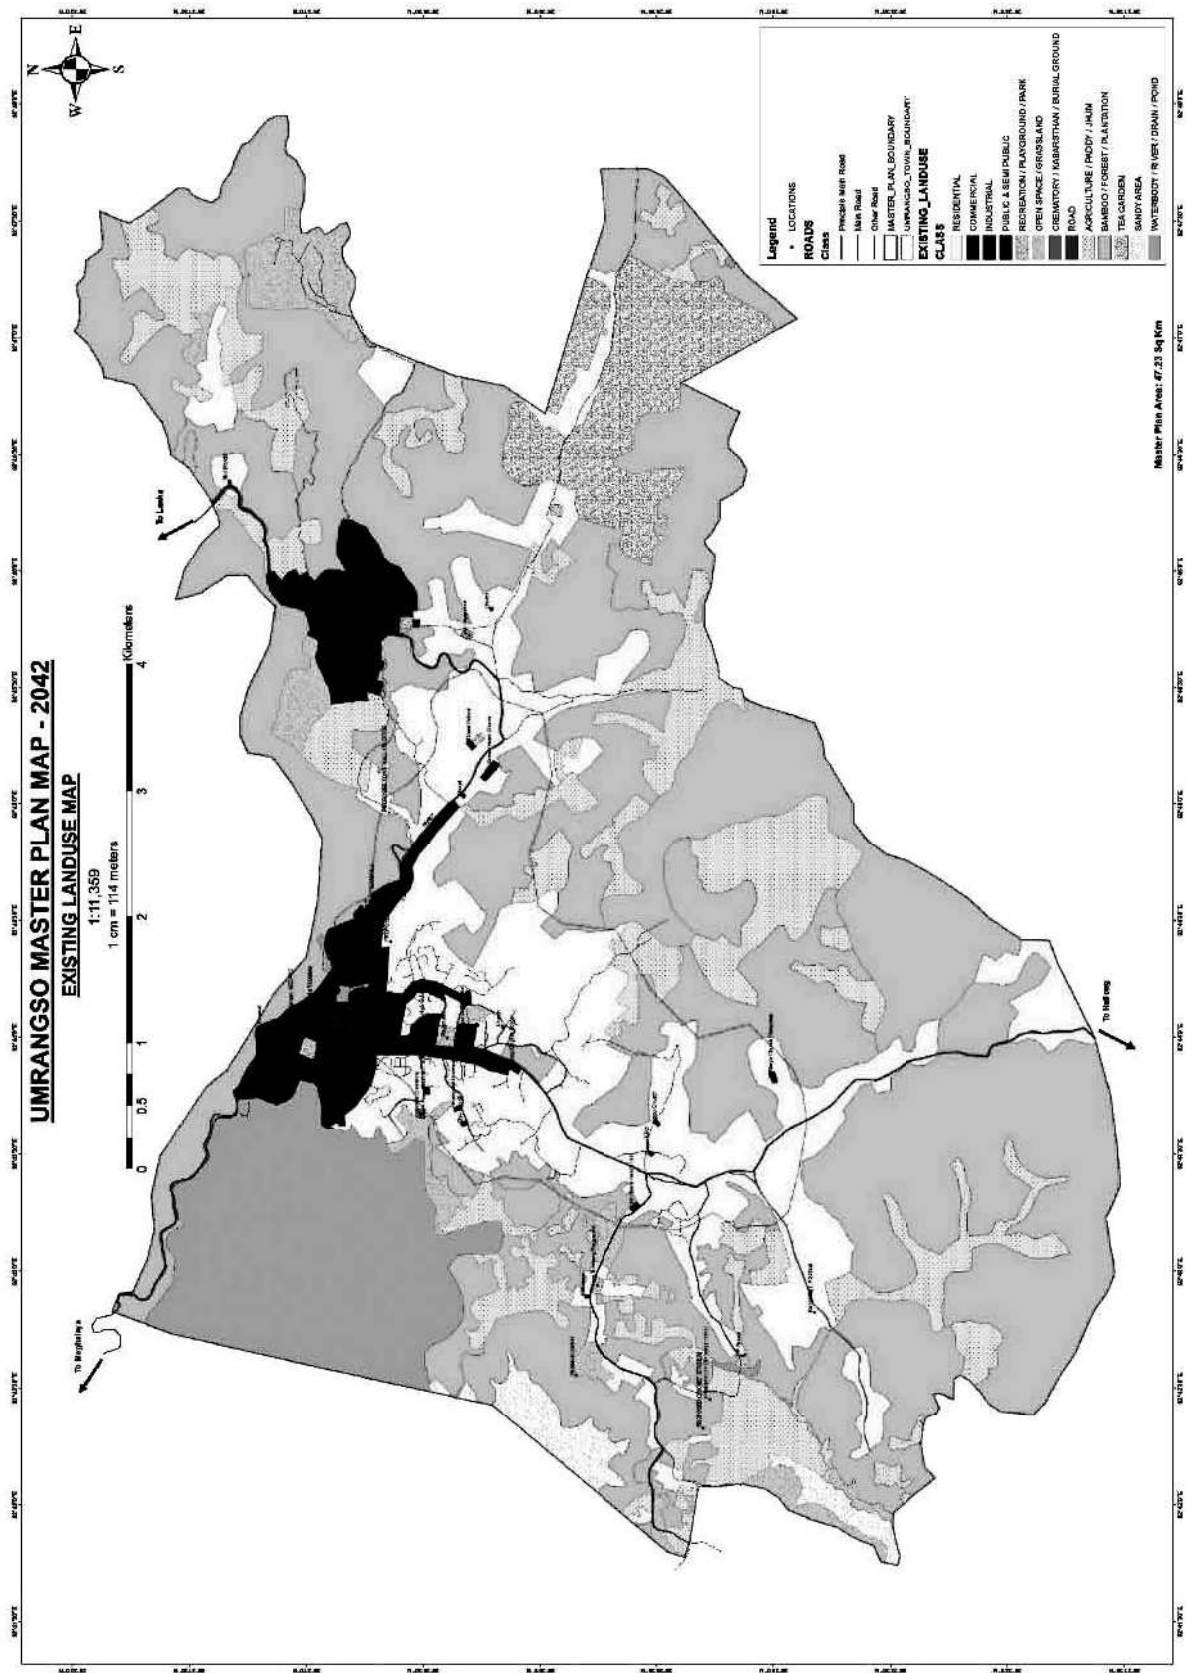

1.6 Autonomous Hill District Council

Under the 6th Scheduled of Constitution of India, the North Cachar Hills now Dima Hasao district aspires the status of an autonomous hills district under para-1 having independent district council under para-2 with the headquarters at Haflong. And under para-20 of the same scheduled, Dima Hasao is declared as a tribal area which came into being on 23rd June 1952 while Late Bishnu Ram Medhi was the Chief Minister of Assam at that time.

The North CacharHills District Council consists of 28 members. The District Council has both executive and legislative power. Thus two autonomous Hills district formed for United Mikir and Cachar Hills have been brought under one single administration for the purpose of general administration till bifurcation on 1970. And after that North CacharHills district renamed as Dima Hasao on 30th March'2010.

1.7 UMRANGSO Town Committee

The UmrangsoTown Committee is the local self-government for the town dealing with the social, infrastructure and economic development of the town. The Autonomous Council sanctions the annual budget for the town and the board has been planning to use the master plan in order to improve suggest and provide infrastructure facilities in the town. The Chairmen of the municipal board and members have taken efforts in the interaction with the planning team, including external experts in order to suggest the plans. The vision for the year 2042 is shared by the board with the planning team, wherein *the town needs to provide for tremendous economic opportunity, investment destination by improvement in the amenities.*

CHAPTER 2 : DEMOGRAPHY

2.1 Introduction

UMRANGSO is a town located in Dima Hasao district, Assam with total 501 families residing. The UMRANGSO town has population of 2121 of which 1203 are males while 918 are females as per Population Census 2011. The UMRANGSO master plan area has estimated population of 7552 persons of which 3945 males (50.55%) and 3607 (49.45%).

UMRANGSO town is administrated by Town Committee who are the elected representative of town.

| Name | HouseHold | Total_Population | Male Population | Female Population |
|----------------------------|-------------|------------------|-----------------|-------------------|
| Umrangso (TC) | 2401 | 10376 | 5575 | 4801 |
| Choto Larpheng | 50 | 256 | 125 | 131 |
| Choto Langlai | 18 | 96 | 53 | 43 |
| Choto Tungkrang | 12 | 57 | 30 | 27 |
| Krungthai | 27 | 142 | 75 | 67 |
| Dorbin | 33 | 183 | 90 | 93 |
| MungloiPhonglo | 11 | 62 | 34 | 28 |
| Dithur | 49 | 258 | 142 | 116 |
| Longmaiklu (Longmaklu) | 38 | 253 | 137 | 116 |
| Tuijonte | 30 | 146 | 80 | 66 |
| Disabra | 40 | 211 | 104 | 107 |
| Umrangso (Umrangso 19 Km.) | 85 | 442 | 219 | 223 |
| Dithur Tea Garden | 134 | 494 | 237 | 257 |
| Total | 2928 | 12976 | 6901 | 6075 |

2.2 Density Pattern

In Umrangso Master Plan Area based on the existing trend of development, availability of building land, projected population etc. three density zone have been proposed. Residential use area of the proposed Master Plan is marked as 25% under high density, 25% under medium density and 55% under low density zone. The gross residential density of three different type have been identify for UMRANGSO Area are as follows-

- Low Density: <50 persons per hectare
- Medium Density: 50- 99 person per hectare
- High Density: >99 person per hectare

2.3 Population Distribution

UMRANGSO is a Town Committee city in district of Dima Hasao, Assam. The Umrangso city is divided into 10 wards for which elections are held every 5 years. The Umrangso Town Committee has population of 10376 of which 5575 are males while 4801 are females as per report released by Census India 2011. The ST population today constitute 16 percent of the total population. The town needs careful planning for the benefit for the local population and maintain the regional balances. The majority of the population are the scheduled tribe where majority are from the general category and may be migrants from outside town. There are 527 households in the rural area and about 2401 households in the town area.

2.4 Population Density

Population density refers to the number of people living in an area per square kilometre. UMRANGSO Master Plan area covers 47.23 sq.km of area with a total population of 12976, as per estimate, 2021. The density of the Umrangso TC area is 2607 persons per sq.km, which is second in the district as per 2011 census. It can be inferred that the area is highly congested and there is need of housing. The future population density is expected to rise at 875 and 1022 person per sq.km by the year 2032 and 2042 respectively.

2.5 Sex Ratio

In UMRANGSO town population of children with age 0-6 is 1745 which makes up 12.52 % of total population of village. The master plan area has children (0-6 age) is 13.4%. Average Sex Ratio of master plan area is 861.

2.6 Working/Non-Working Population

As per estimate, 80.25% of the UMRANGSO master plan area are literate. However, Only 75% of the population is working. This share of unemployment indicates that there is lack of opportunities in the area. The master plan proposal highly demands infrastructure to boost the employment generation of the region.

2.7 Dependent Population

Out of the total population of UMRANGSO master plan area, 30% of the population ranges between 0-6 years and 65 years and above, as estimate. 15.6% of this 30% share is by 0-14 years of population. This indicates that in the near future there is more youth percentage share to contribute to the employment of this area.

2.8 Household Size and Density

Household size refers to the number of persons (irrespective of age) living as an economic unit. This does not require that they be in a physically separate housing unit. It is expressed as person per household. There are 2928 households with 12,976 persons in the Master Plan area. The average household size of UMRANGSO Master Plan area is 5.18, which is 4.45 for Nation's average in 2011 census. It is to note that high household size refers to congested living in a household. It can also be inferred that high household size means low per capita income.

2.9 Projected Population

Population projection refers to the forecasting of population in future based on present and past population data. It helps to understand the plan-policy need of an area in terms of physical, social, economic, environmental factors etc. It is done by Arithmetic method and Geometric Mean method. (*sufficient data is not available for projection with Incremental Increase method).

| Population Estimate and Projection for UMRANGSO Master Plan Area | | | | |
|--|--------------|--------------|--------------|--------------|
| Name | 2011 | 2021 | 2031 | 2041 |
| Umrangso (TC) | 10376 | 15668 | 23658 | 35724 |
| Choto Larpheng | 256 | 387 | 584 | 881 |
| Choto Langlai | 96 | 145 | 219 | 331 |
| Choto Tungkrang | 57 | 86 | 130 | 196 |
| Krungthai | 142 | 214 | 324 | 489 |
| Dorbin | 183 | 276 | 417 | 630 |
| MungloiPhonglo | 62 | 94 | 141 | 213 |
| Dithur | 258 | 390 | 588 | 888 |
| Longmaiklu (Longmaklu) | 253 | 382 | 577 | 871 |
| Tuijonte | 146 | 220 | 333 | 503 |
| Disabra | 211 | 319 | 481 | 726 |
| Umrangso (Umrangso 19 Km.) | 442 | 667 | 1008 | 1522 |
| Dithur Tea Garden | 494 | 746 | 1126 | 1701 |
| Total | 12976 | 19594 | 29587 | 44676 |

It shows that by 2021 the population of UMRANGSO Master Plan area will be 19594 persons and in the next decade, 2031, it will be 29587 persons. and in the last projected decade 2041,

the population of UMRANGSO master Plan area will be approximately 44676 persons. UMRANGSO being one of the important towns of the Dima Hasao district with good educational facilities and commercial centres has been major factor for estimation of the population. Another factor is the topography, it being the only town in the district with plain geographic profile for which the development of infrastructure in this area as business centre is convenient.

2.10 Literary Level in Master Plan Area

UMRANGSO Master Plan Area has higher literacy rate compared to Assam. In 2011, literacy rate UMRANGSO town was 74 % compared to 72.19 % of Assam. In UMRANGSO Male literacy stands at 78 % while female literacy rate was 69 %. The master plan area has improved literacy in 2011 with 74% where in the male literacy is 78 and female literacy is 69 %. The literacy rate is expected to have improved between the last decades due to sustained program. However, the concern for the town must be suitably be addressed by the concerned authorities.

| Literacy Rate | | | | | | |
|----------------------------|-------------|-------------|-------------|-------------|-------------|-------------|
| Name | P_LIT | M_LIT | F_LIT | P_ILL | M_ILL | F_ILL |
| Umrangso (TC) | 8227 | 4672 | 3555 | 2149 | 903 | 1246 |
| Choto Larpheng | 188 | 91 | 97 | 68 | 34 | 34 |
| Choto Langlai | 60 | 36 | 24 | 36 | 17 | 19 |
| Choto Tungkrang | 19 | 13 | 6 | 38 | 17 | 21 |
| Krungthai | 85 | 51 | 34 | 57 | 24 | 33 |
| Dorbin | 129 | 72 | 57 | 54 | 18 | 36 |
| MungloiPhonglo | 31 | 19 | 12 | 31 | 15 | 16 |
| Dithur | 107 | 67 | 40 | 151 | 75 | 76 |
| Longmaiklu (Longmaklu) | 146 | 89 | 57 | 107 | 48 | 59 |
| Tuijonte | 74 | 49 | 25 | 72 | 31 | 41 |
| Disabra | 132 | 75 | 57 | 79 | 29 | 50 |
| Umrangso (Umrangso 19 Km.) | 217 | 116 | 101 | 225 | 103 | 122 |
| Dithur Tea Garden | 92 | 55 | 37 | 402 | 182 | 220 |
| Total | 9507 | 5405 | 4102 | 3469 | 1496 | 1973 |

The town has majority of the population literate compared with rest of the district, the literacy in the town area is very good. The literacy rate in Umrangso stands at 72.52% out of which 79.47% are male literate while 64.8% are female literate.

More focus on the local languages, primary education and adult literacy must be focused during the next two decade of planning the urban area.

The progress of the private education in the town must be encouraged and infrastructure must be improved to retain the school going population up to primary level and later at secondary.

Chapter 3: ECONOMIC BASE AND EMPLOYMENT

The economy of a region can be determined by analysing the Work Force Participation Rate (WFPR), Occupation structure, Employment status (regular employed, self-employed, casual labour, unemployed), Formal/ Informal sector etc.

3.1 Occupation

As per Census 2011, UMRANGSO master plan area comprises of 3086 nos. of working population and 4466 nos. of non-working population. 76.86% of the working population are main workers and 23.14% are marginal workers. 22.22% is involved in cultivation, 13% in business, 12% in agriculture and 41.98% of the working population is involved in other like labour, household workers etc. This indicates that there is lack of opportunities in the area. The Master Plan proposal highly demands infrastructure to boost the employment generation of the region.

Table 3.1: Working Population

| Sr. No. | Occupation | Total No. of Working Persons |
|---------|--------------|------------------------------|
| 1 | Cultivators | 1045 |
| 2 | Agricultural | 25 |
| 3 | Business | 56 |
| 4 | Service | 945 |
| 5 | Other | 1015 |
| | Total | 3086 |

In UMRANGSO town out of total population in 2011, 3086 were engaged in work activities. 61.48 % of workers describe their work as Main Work (Employment or Earning more than 6 Months) while 38.52 % were involved in Marginal activity providing livelihood for less than 6 months. Of 945 workers engaged in Main Work, 1045 were cultivators (owner or co-owner) while 25 were Agricultural labourer.

The varied relief features of the region must first be evaluated in order to find out stable and non-useable areas, which can provide infrastructural base to planners. The region has potentiality for developing hydel power, agro based industries and tourist industry.

3.1 Economic Base of Town

Economic activities can be anything that makes money. Across the whole economy, we usually separate it into primary, secondary, tertiary and quaternary:

Primary: retrieving raw materials from the environment including, fishing, forestry, mining and farming.

Secondary: manufacturing and processing these materials into products that can be used. This includes the transport and storage of materials.

Tertiary: the provision of services to customers. This includes shops, entertainment and intellectual services such as legal and financial.

Quaternary: innovation, research and development of new products and services.

In the urban economy, there is usually no primary industry. Therefore, for this page, economic activity is split into retail, commercial and industrial.

Retail: the sale of individual products to individual customers. This most commonly takes place in the city centre, or 'Central Business District', but can occur anywhere in the city and increasingly online.

Commercial: the provision of services to the public and businesses, usually taking place in offices. It includes legal services, banking, logistics and technology support (e.g. website design). Note: this is a narrow definition of commercial activity for the purposes of this page only. Most sources include retail as a part of commercial activity.

Industrial: the manufacturing, processing, transport and storage of goods.

For detailed information about where these activities are found in urban areas, check the page on this site 'Urban land use patterns'. The rest of this page focuses on the reasons why economic activity is found in different parts of urban areas.

3.2 Factors Affecting the Location

The following factors are never used in isolation by businesses to decide where to locate. Location is always a compromise between these different issues. This is why all urban areas are different;

- a) Physical factors
- b) Physical factors include (among others):

- c) Terrain: whether the land is hilly or flat
- d) Water supplies
- e) Proximity to coastlines and rivers
- f) Physical hazards e.g. Flash flooding, landslides.

In general, the requirements for each type of economic activity are as follows:

- I. Industry: most industrial processes require a large area of land. They also require the land to be relatively flat, so that production lines can operate easily.
- II. Retail: Retail usually requires relatively little land in the CBD, but the land needs to be stable and non-hazardous. Increasingly, out-of-town shopping centres require large areas of land for both the shops and the car parks. They also require the land to be flat so that building is cheaper.
- III. Commercial: As retail.

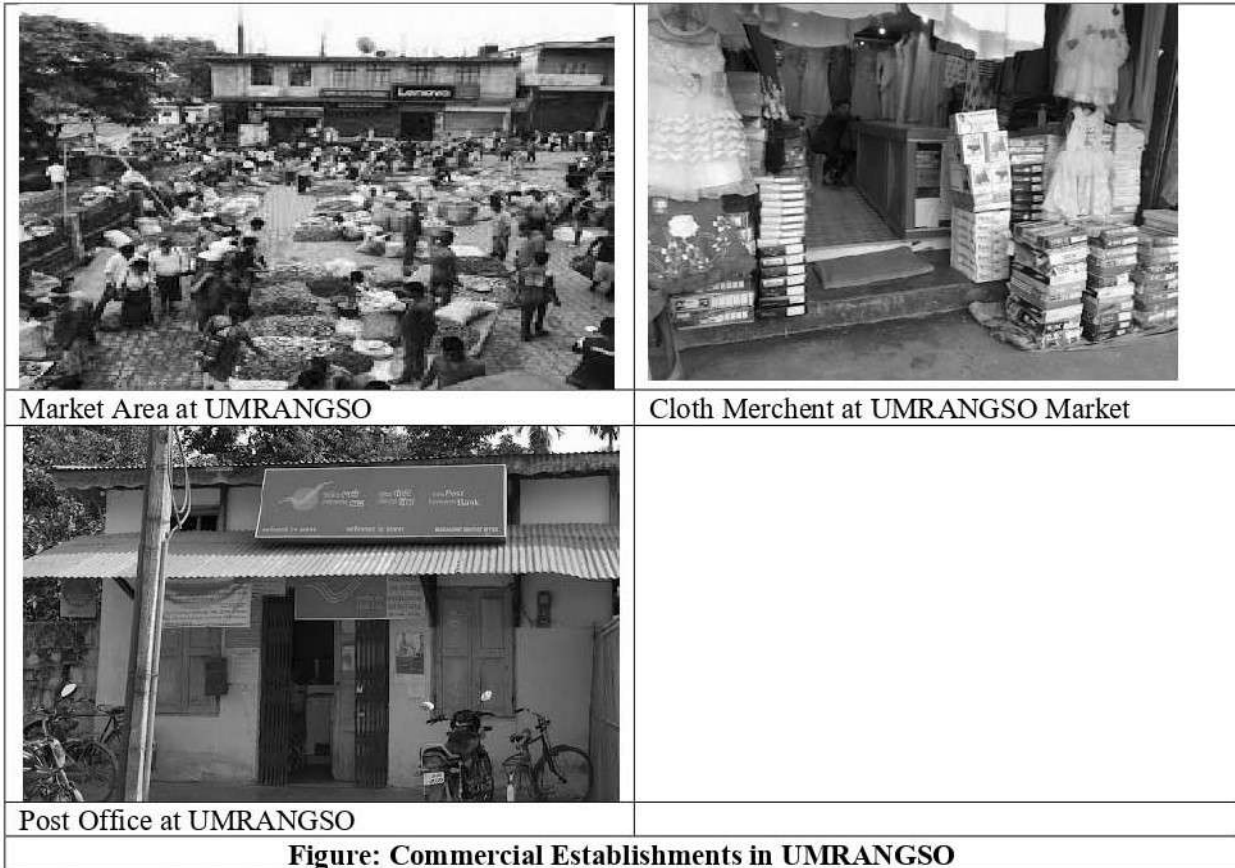

3.3 Workers Profile of UMRANGSO

Total working population of UMRANGSO master plan area is 2587 which are either main or marginal workers. Total workers in the town/city are 1176 out of which 599 are male and 577 are female. Total main workers are 1578 out of which male main workers are 1157 and female main workers are 421. Total marginal workers of UMRANGSO are 1009 persons.

| Table 3.1 UMRANGSO Master Plan Area Working Population ---Census 2011 | | | |
|--|--------------|-------------|---------------|
| Name | Total | Male | Female |
| Total Workers | 3086 | 2026 | 1060 |
| Main Workers | 2570 | 1790 | 780 |
| Cultivators | 1045 | 604 | 441 |
| Agricultural Labour | 25 | 18 | 7 |
| Household Workers | 65 | 34 | 31 |
| Other | 1435 | 1134 | 301 |
| Non Worker | 4466 | 1919 | 2547 |

3.4 Formal Sector

The town has organized service sector like education (primary, secondary and college), health (Public and Private clinic), Banks (commercial and Gramin) and Restaurants and Petrol Pumps. These are the only formal sector jobs available in the urban area, UMRANGSO is recognised by the Government of Assam as one of the Industrial Growth Centre in the Dima Hasao district.

3.5 Informal Sector

The town is extensively dependent on the shops and establishments in the market areas in the main areas as well as the villages adjacent to the town. The shops now regarded as MSME employ the majority of the youth who wish to practice non-agricultural occupation. The town has informal selling of vegetables and daily consumptions items in the markets held daily at the town and weekly at different locations of the urban areas mainly villages.

Daily Market, Town Committee, UMRANGSO

3.6 Occupational Pattern

The Town Area has more people engaged in non-agricultural activities, but in the town we have about 65 percent of the working population also engaged in the agriculture as main occupation. Majority of the female workers are engaged in the service sector in the city.

About 20 percent of the workforce are working as marginal workers in the city, the farming population in the villages of the urban areas are engaged also in the non-agricultural activities. The daily commuters from the neighbouring villages have increased and town market activities have improved during last five years.

| Occupational pattern in Umrangso Master Plan Area | | | | | | | | | | | | | | | | | | | | |
|---|---------------|-------|----------|----------|----------|-------------|-----------------|-----------------|--------|----------|-----------|------------|---------|--------------|----------|------------|----------|------------------|------------|-------|

3.7 Economic Activity

Rice Mill

The town has traditional and modern rice processing areas. The rice mill located on the main road services the region during the season. The rice mill processes the paddy during the season the provides employment to at least 20 different people.

Figure: Rice Mill, Main Road (AH), UMRANGSO

Pradhan Mantri Kaushal Kendra UMRANGSO

The town has recently supported by the Pradhan Mantri Kaushal Kendra. The training provided under the central government program includes skilling the people. The training on the solar products, stitching and other items are underway to improve the skills of the people.

Padhan Mantri Kaushal Kendra (PMKK) centers are state-of-the-art, visible, and aspirational model training centers that have been created in every district of India, ensuring coverage of all parliamentary seats. PMKK is a Ministry of Skill Development and Entrepreneurship initiative to ensure the creation of a standardized infrastructure for the delivery of skill development training that is equipped to run high-quality industry-driven courses with a focus on employability and create an aspirational value for skill training. The goal of PMKK is to turn the short-term training ecology into a long-term institutional model.

3.8 Impact of Master Plan on Economic Activities of town.

The proposal of the proposed master plan would invariably create a number of direct employment opportunities. However, indirect employment opportunities would also be generated which would provide great impetus to the economy of the local area. Various types of businesses, such as shops, food-stalls, tea stalls, restaurants, workshops, etc. would invariably come-up, which would be run by the more entrepreneurial local residents. Besides, a variety of suppliers, traders, transporters, service providers, etc., are also likely to concentrate here and likely to benefit immensely, as demand for almost all types of goods and services will increase significantly.

The business community as a whole would be benefited. The locals would also avail these opportunities arising from the master plan and increase their income levels. The proposal of the master plan will provide an impetus to the industrialization and urbanization in the area. Many of the agricultural lands or barren lands in the vicinity of the master plan area are likely to be put to non-agricultural uses. The master plan would require lot of ancillary developments like shops, restaurant, workshops, etc. which will have a significant impact on the existing land use of the area. Job opportunities will drastically improve in this area. At present most of the population sustains on agriculture and allied activities. There are no major industries or other avenues of occupation in the area. The master plan will open a large number of jobs to the local population during master plan proposal phase.

Business opportunities

Apart from direct employment, opportunities for indirect employment will also be generated which would provide great impetus to the economy of the local area. Various types of business like shops, food-stall, tea stalls, etc. besides a variety of suppliers, traders, transporters will concentrate here and benefit immensely as demand will increase significantly for almost all types of goods and services. The business community as a whole will be benefited. The locals will avail these opportunities arising from the master plan and increase their income levels. With the increase in the income levels, there will be an improvement in the infrastructure facilities in the area.

Chapter 4 : HOUSING AND SHELTER

Food, cloth and shelter are the basic needs of a human being. The Master plan should show the location of various types of uses, densities, yields, and lot sizes. When developing housing, a variety of housing types, sizes, and tenures must be considered. In this context, the Master plan should also ensure appropriate housing density and diversity. The Master Plan should also be flexible enough to allow for change over time in housing diversity as communities mature.

4.1 Housing Scenario

As per estimate, UmrangsoMaster Plan area includes 1479 houses. Based on current population, there is a lack of 530 numbers of houses in UmrangsoMaster Plan area. The town has 95 percent households living their owned houses. About 3.5 percent of the households are living in the rented houses. Their own self or hereditary except in the some of the habitations constructs the houses where there has been large influx of the migrants during last two decades.

| Sr. No. | Type of house | Housing stock |
|---------|---------------|---------------|
| 1 | Pucca | 751 |
| 2 | Semi Pucca | 1125 |
| 3 | Kutcha | 1052 |
| | Total | 2928 |

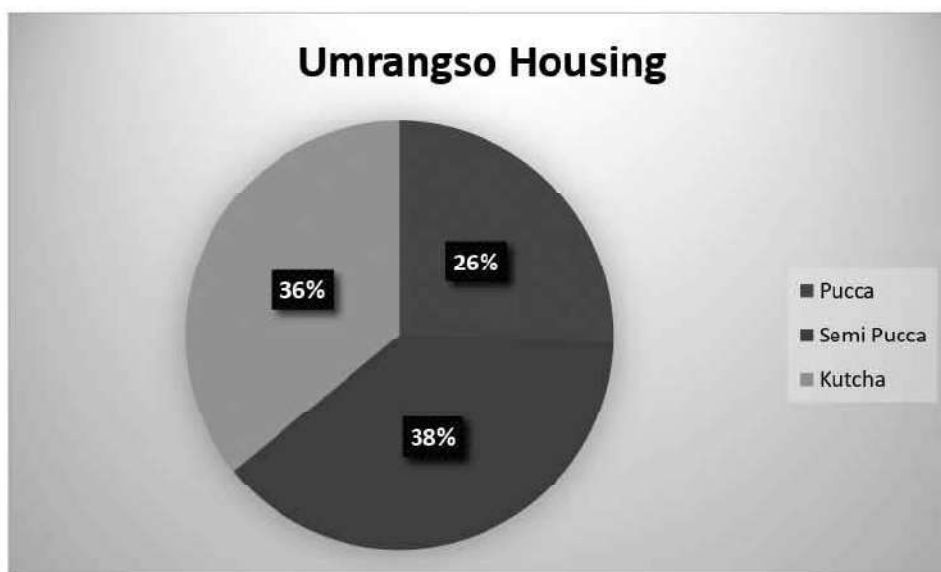

Figure 4.1: Housing Scenario in UMRANGSO

The UMRANGSO have traditional houses with semi-pucca structure of semi-public and public buildings, tached houses with basic W/c area in the vicinity. Type of Houses Type of house is one of the major indicators of the quality of life of a community. Figure-2.5 shows that close to about one-fourth of the households are staying in a Pucca house. The definition of a Pucca house is the one that has permanent (RC) structure for all the three portions, namely, floor, walls and roof. Semi-pucca are those houses with two of the three portions made of permanent structure and the survey recorded that about one-third of such houses (semi-pucca). Obviously those house with only one of the three portions or mostly none are the Kuccha houses and it constituted the majority of the houses (61%). About 76% of the households have separate space for kitchen and 87% houses have toilets indicating a progressive sanitation behaviour.

4.2 Housing supply mechanism

The census tables can be summerised that the town has more semi-pucca houses constructed by the households themselves. A typical houses would have two rooms, indoor/outdoor cooking area and sitting for the outsiders.

| Sr. No. | Type of house | Housing stock |
|----------------|----------------------|----------------------|
| 1 | Pucca | 751 |
| 2 | Semi Pucca | 1125 |
| 3 | Kutchha | 1052 |
| | Total | 2928 |

4.3 Housing condition

The house structure is made of thatched materials, roof and walls uses more wood and thatched materials. The floor is mud or cement concrete in some of the places. The light houses are easy to dismantle and can have easy construction post disaster (as the region is mostly flood prone)

The open areas are found in the front and back of the houses. The typical small towns would have characteristics of the village wherein the houses also have kitchen garden, small ponds for rearing fish and hatcheries for hens and eggs.

The town does not have any slum, but there are poor households and income of the households varies in the town. The rich households own large plot of the land and are organised along the main access routes of the town. The outsiders like merchants, financiers and governments officials have housed themselves near to the town centre.

The tribal population are also residing on the fringe of the town and villages surrounding the town, They supply the weekly and daily needs of the town with vegetables and other consumables. The education facilities in the town attracts the students from the villages.

The new construction in the towns uses modern materials but its only limited to 10 percent of the households. The areas require more improvement in the sanitation and drainage conditions. About 80 percent of the households have water connection in the town centre however many also have the hand pump and wells in the vicinity for drawing drinking and portable water.

The homelessness in the town is very less and all the people have respectable housing units. The needs for the dormitories for the new migrants or travellers is required in the town to maintain the safety of the travellers.

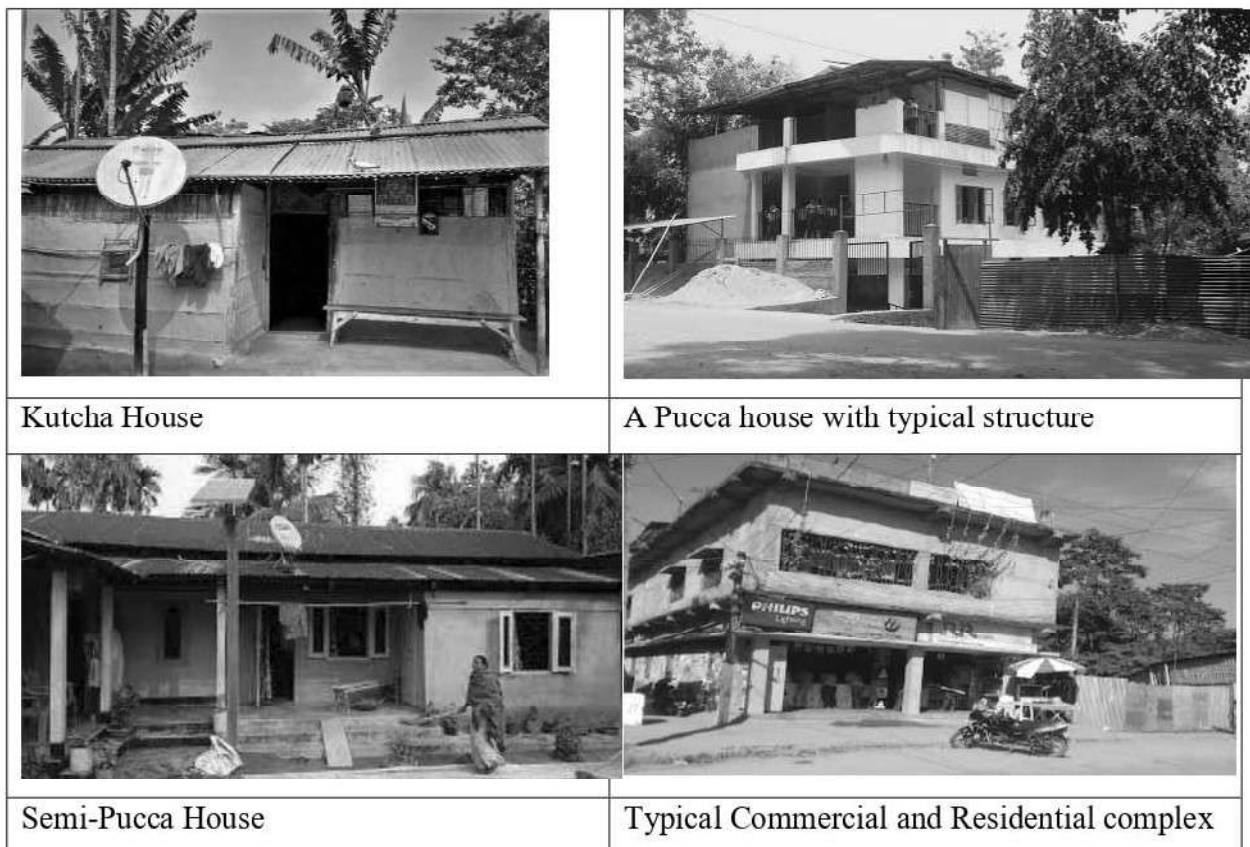

Figure 4.1 : Housing Typologies in the town areas

While taking building permission it is necessary for the residents to make arrangement for water harvesting system.

4.4 Improvement in the housing situation

The housing units in the urban and rural fringes of the town has been expecting improvement. The success of the Pradhan Mantri Awaas Yojna for urban and rural areas have helped households to get respectable housing units.

Figure 4.3: A Typical PMAY Unit

The housing unit typically to be under the single or joint ownership with the women head of households is the bold step in the right directions. The town has been constructing the houses, and block development office in the town has been listing beneficiaries for the projects.

4.5 PMAY Progress

The town has been approved for 700 houses under the Pradhan Mantri Awaas Yojna, which mainly covers the poor family. The standard approved designs have been adopted for the houses in town.

The master plan has proposed some of the areas for the rehabilitation and relocation of the houses which are in the flood prone regions, homeless and destitutes for providing shelter. A project for providing hundred houses for such group would be initiated in the five different localities in the town.

Figure 4.4: Typical Housing Typologies for the MIG/HIG housing.

Figure 4.5: A typical cluster for the town area for the high density low rise development

Chapter 5: TRANSPORTATION

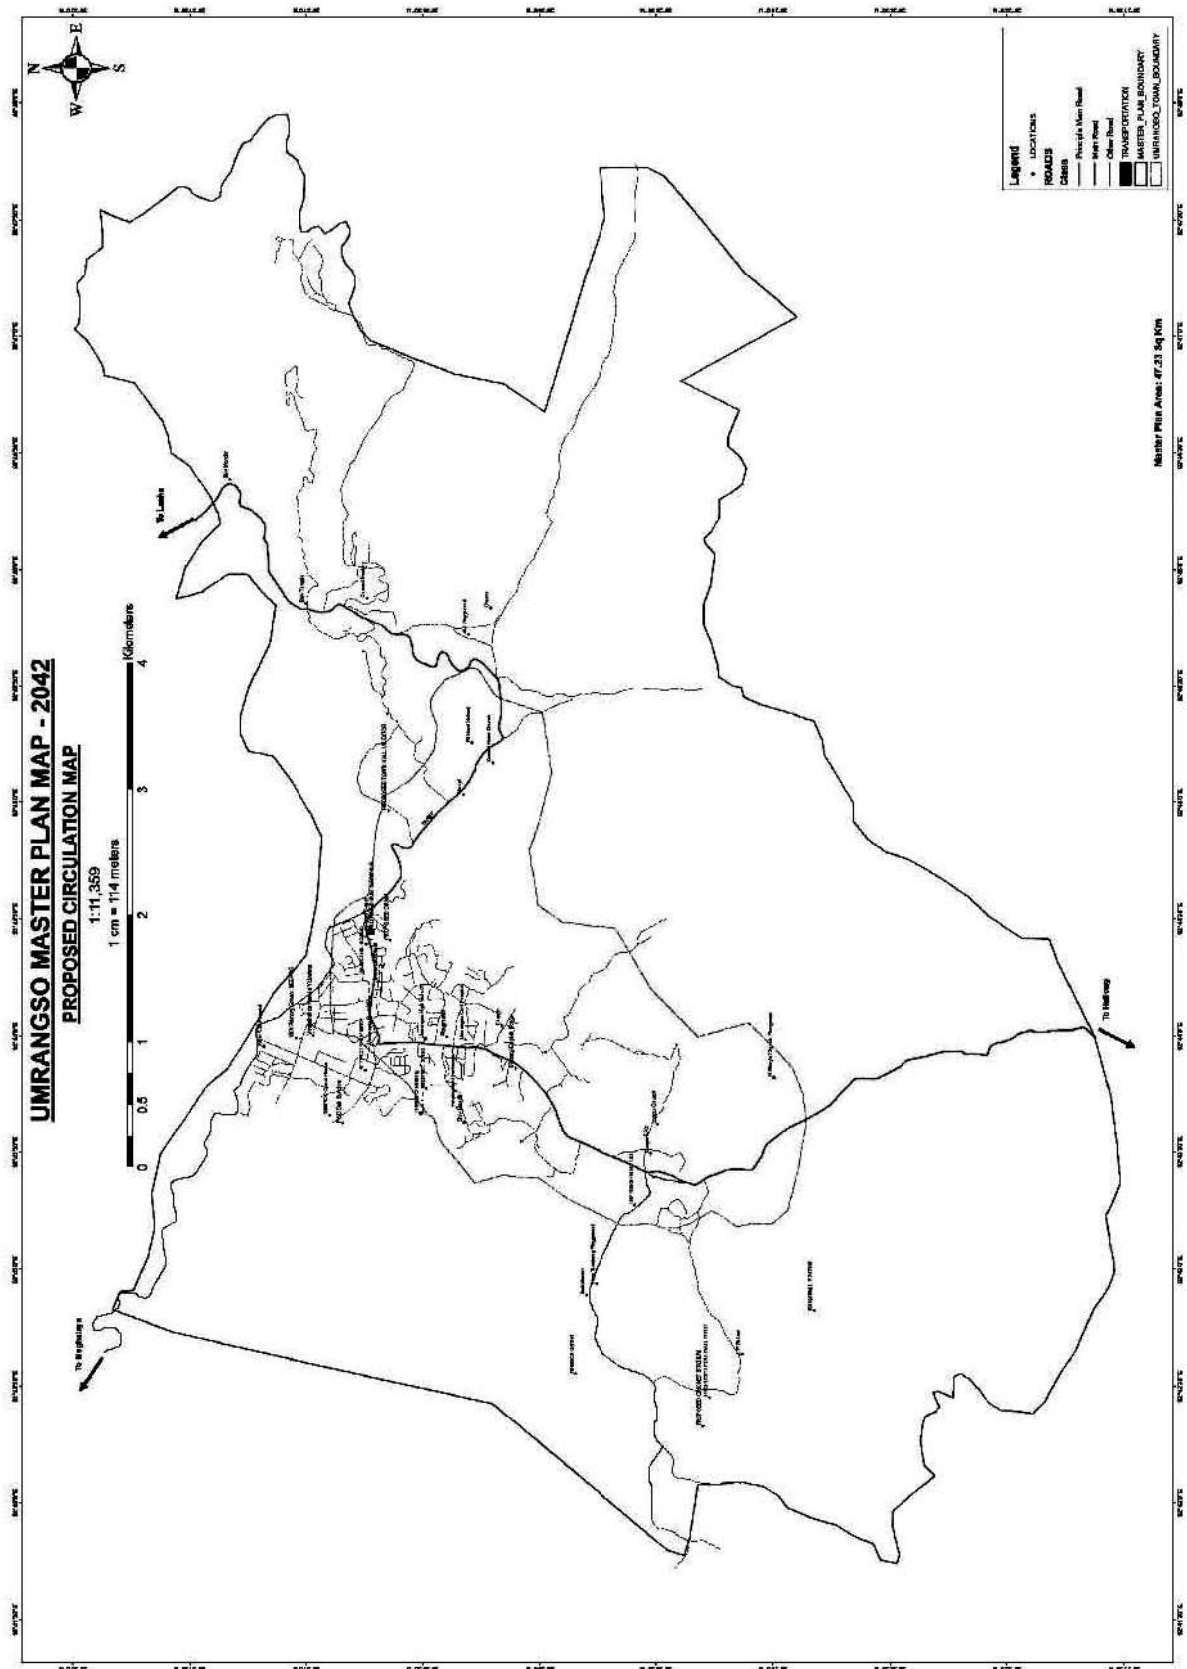

5.1 Network of Roads

Roads are divided into three segments viz. primary road, secondary road & tertiary road. UMRANGSO is well connected with National Highway-36, which passes through the Master Plan area. The width of the primary roads is 10m-15m. Now-a-days different bus services link the area with the other places within the state and country. Tertiary roads are the local roads/ streets within the residential areas/ semi-public areas etc. where width of roads is 4m-6m. These internal roads are covered by PWD. UMRANGSO has a railway station and it makes the area easily accessible from various parts of the region. However, the transport and communication are yet to develop in the district including the Master Plan area of UMRANGSO.

5.1.1 Existing Road Network

The master plan area had approximately 54 (48 km in TC Area) km length comprising of Nation Highway/Asian Highway no 2(AH2), District road and the local roads. The region has developed all the roads for the accessibility however there is need to improve the carrying capacity of the roads.

| Sr.No | Type | Width | Length in km |
|--------------|------------------|--------------|---------------------|
| 1 | National Highway | 36 | 6.78 |
| 2 | State Highway | 36 | 0 |
| 3 | District Roads | 20 | 33.7 |
| 4 | Local Roads | 10 | 23.72 |
| | Total | | 54 |

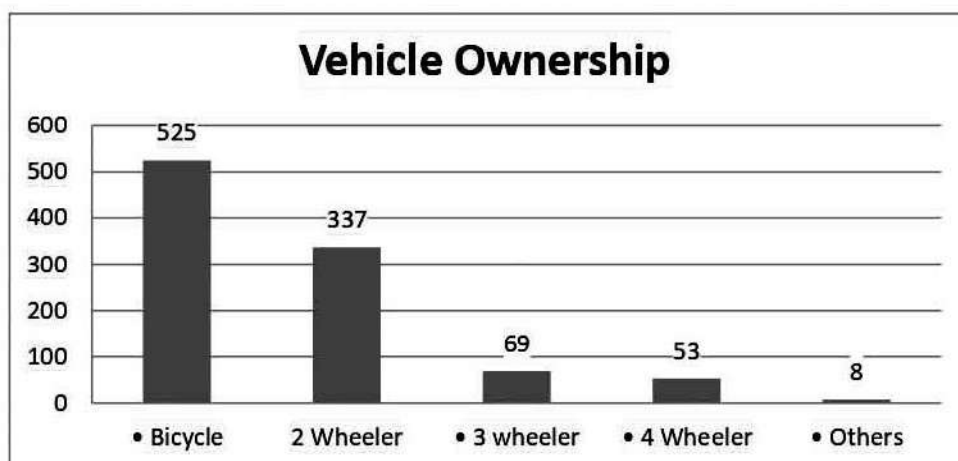

5.2 Modes of Transportation

Roads and Railways are the primary means of transportation in this region. Dima Hasao Autonomous Council Transport buses ply at regular interval to other important cities of the state. Private Taxi, Auto-rickshaw, Rickshaw, E-rickshaw are used as Intermediate modes of transportation.

5.3 Vehicle Ownership

Vehicle ownership details help to plan and fund improvements to road and highway infrastructure, develop transportation plans and services, understand the preferable mode of transportation, evaluate pollution and access to transportation in emergencies. The availability of the following modes of transport - Bicycle, Scooter/Motorcycle/Moped, Auto-rickshaw/rickshaw and Car/Jeep/Van was ascertained. As per estimates, only 40% of household in UMRANGSO Master Plan area have access to vehicle ownership. Out of the 40%, 52.8% is bicycle/tricycle for disabled person, 33.2% is two wheeler i.e. motor cycle/scooter/ moped, 8% is three wheeler, i.e., Auto- rickshaw/ van/rickshaw, 6% is four-wheeler, 1% is others including bus/truck etc.

| Sl. No. | Type of Vehicle | Nos. of Vehicle | P.C |
|---------|-----------------|-----------------|----------------|
| 1 | Bicycle | 525 | 52.92% |
| 2 | 2 Wheeler | 337 | 33.97% |
| 3 | 3 wheeler | 69 | 6.96% |
| 4 | 4 Wheeler | 53 | 5.34% |
| 5 | Others | 8 | 0.81% |
| | TOTAL | 992 | 100.00% |

5.4 Road Typology

Black top, Sand gravel, Earthen, Pavers block type of roads are seen within the Master plan area of UMRANGSO. The Road generally divided into 3(three) types -Primary road [roads linked with National Highways and are maintained by Central Public Works Department(CPWD)], Secondary (Feeder Road), and Tertiary [Rural Roads consisting of District Roads(ODR) and Village roads].The Town is served by one National Highway (NH-36) and one State Highway (SH-19).

5.5 Transportation Amenities

At present, there is no bus terminal within the Umrangso Master Plan Area. One bus terminal is proposed near SH -19. Roadside parking is seen all around the master plan area. This reduces the capacity of the roads and creates congestion within the town. There is lack of street signage and should be incorporated in the proposed master plan for better navigation.

The traffic junctions, rotary are neither adequate nor functioning well, because of which traffic congestion happens and needs a proper planning. rotary development in proposed at four (4) locations within the master plan area and the rotary at the junction of Primary (SH-19) and Secondary Road near is proposed to improvement. No designated parking is available within the area.

The on-street parking making the roads narrower. Only parallel parking to be permitted for on-street parking on the carriage way with parking spaces clearly defined by lane markings. Parking on public space anywhere in the city at any time, by any mode, needs to be charged a

price. The objectives of pricing are to (i) generate revenues, (ii) provide employment, especially poor, (iii) restrain demand, (iv) promote PMT, (v) encourage private sector investment, and (vi) rationalize parking duration.

5. 6 Proposed Road Network

The region has developed all the roads for the accessibility however there is need to improve the carrying capacity of the roads. The master plan area has been proposed to improve the road condition by undertaking widening of the road Right of Way (RoW) for approximately 68.1 km length comprising of State Highway, District road of proposed 30 m and 24 m RoW for about 15.94 kms and 7.82 kilometres respectively. The number of the local roads needs strengthening which can be carried out for 37.56 kms length after detailed feasibility report.

| Sr. No. | Type | Width | Length in km |
|---------|-------------------|-------|--------------|
| 1 | National Highway | 45 | 6.78 |
| 2 | State Highway | 45 | 0 |
| 3 | Proposed Road 30m | 30 | 15.94 |
| 4 | Proposed Road 24m | 24 | 7.82 |
| 5 | No Change | | 37.56 |
| | Total | | 68.1 |

Chapter 6 : INFRASTRUCTURE, PUBLIC UTILITIES & SERVICES

This is the bottom level category of all towns' hierarchy of the region. There were only six towns in this category in 2001 and in 1991 no town falls in this category. Most of the towns belonging to this category poorly accessible and have a very low level of socio-economic infrastructural facility.

The development in infrastructural facilities (civic, educational, medical, and cultural facilities) between 1991 and 2001 has been more in small and medium towns, probably due to the increasing demand of growing population. The future development of Assam depends primarily on this category for the location of policy and non- policy central functions for rapid urban transformation of this region.

6.1 Local Employment Opportunities

The operation of the master plan will provide an impetus to the industrialization and urbanization in the area. Many of the agricultural lands or barren lands in the vicinity of the master plan area are likely to be put to non-agricultural uses. The master plan would require lot of ancillary developments like shops, restaurant, workshops, etc. which will have a significant impact on the existing land use of the area. Job opportunities will drastically improve in this area. At present most of the population sustains on agriculture and allied activities. There are no major industries or other avenues of occupation in the area. The master plan will open a large number of jobs to the local population during master plan operation phase.

Governmental service enhancement opportunities

After completion of construction phase, there will be upgradation of local services like education, drinking water, health post and other social governmental services like security, bank, finance etc will increase at and around the master plan sites. Government will provide different services to the master plan, which will automatically help locals.

6.2 Physical Infrastructure

Physical infrastructure planning and management for sustainable development of the small town in the region having urban agglomeration attracts the migrants. The development of

infrastructure would regulate the current development in the town and help in boosting the economic and social well being of the people.

6.2.1 Water supply

Water Supply Status (Jal Jeevan Mission)

Jal Jeevan Mission, the most ambitious project of Prime Minister Shri Narendra Modi will benefit around two million people of Assam. This mission will ensure pure and safe water in households. The Department of Drinking Water and Sanitation under the Ministry of Jal Shakti, will implement the project within 2024.

| GW resource dynamic (MCM) | Utilizable GW resource for irrigation (MCM) | Utilizable GW resource for drinking and allied (MCM) |
|----------------------------------|--|---|
| 584 | 496 | 88 |
| Total Habitations | SC Habitations | ST Habitation |
| 3530 | 149 | 3155 |
| WS Percent Access | 65 | 72 |

In Dima Hasao, the existing schemes will be renovated and made functional under the new initiative. New schemes will cover villages where no water supply schemes existed and within December 2024, the entire population of Dima Hasao will be covered.

About two-third of surveyed households draw water from the springs near the village. About one-fourth of the households are having access to public tap water from 52 Bore Well Pumping System and 19 Over Head Tank (OHT) at home.

6.2.2 Drainage system

There are very few formal drainage systems in non-classified towns. Most of the drains are natural and primarily used for irrigation of the paddy fields in the town and its vicinity. The current drainage system in the town is open and prone to blockage due to dumping of the waste near the town centre.

The town has open drains in the market and institutional areas, most of the drainage is sufficient for the current population load in the system. However, a total plan and feasibility report for the drainage system would be required for making the drainage system underground.

As per the PHE standards the housing areas with more densities are required to have better coverage currently this coverage varies from 40 to 60 percent of the residential areas and 70 percent in the commercial areas.

6.2.3 Sanitation

About 80 percent household were having access to the sanitation facility in the Maibong town. The SBM efforts in the block has resulted in improvement in the sanitary conditions. The public urinals and W/C is lacking the market areas and general sanitary conditions have depleted over the years. As per the discussion with the Maibong town committee members its desirable to upgrade the sanitary condition in the public areas.

Lack of the sanitary condition has also led to increase in the water and air borne diseases reflecting the need for improvement in the sanitary services in the town and rest of the proposed urban area.

6.2.4 Sewerage network

The class VI town has very low probability of Sewerage network, however the high density area can start laying the lines along the major road to facilitate the movement of sewerage.

A detailed feasibility report and survey would be needed to cover initial 80 percent of household in the town areas. Regular de-siltation of existing soak pit and services of the municipal services can be improved for the town.

6.2.5 Solid waste management:

Current Practice

The old practice is continued i.e. MSW collected from road side bins provided at different locations by Practically no proper segregation of waste is practiced in the State of Assam Truck, Tractor, Thellas and taken into the dumping ground. Towns are now provided with vehicles and bins for enhancing the practice.

Future Action

- The town shall be free to choose the technology for SWM projects, toilets and street sweeping. The NCHAC shall, from time to time, bring to the notice of the

towns, through advisories and manuals, and other consultative mechanisms, various options available in these fields.

- Towns must contribute a minimum of 25% funds for SWM projects to match 75% NCHAC Share (75 % of fund can also be sourced from state and central government).
- ULBs are advised to use system for formally procuring all waste management equipment, Additionally, ULBs are advised to procure decentralised composting machines directly from the National Seeds Corporation of India, a Government of India PSU.
- ULBs are advised to distribute color coded bins 2 bins per household), such that waste is segregated at source itself. The recommended colors are Green Bin for Wet Waste (ex: biodegradables), Blue Bin for non-biodegradable and other kinds of waste. Extra care must be taken for disposal of hazardous waste such as batteries, medical waste, etc.

Site Identification

The town committee has identified the site for the SWM disposal and processing, however the development of the site, compliance of the people for the waste segregation would be required. The financial and technical capacities of the town and local body must be enhanced to encourage compliance of SWM standards.

6.2.6 Electric sub-station and major transformers

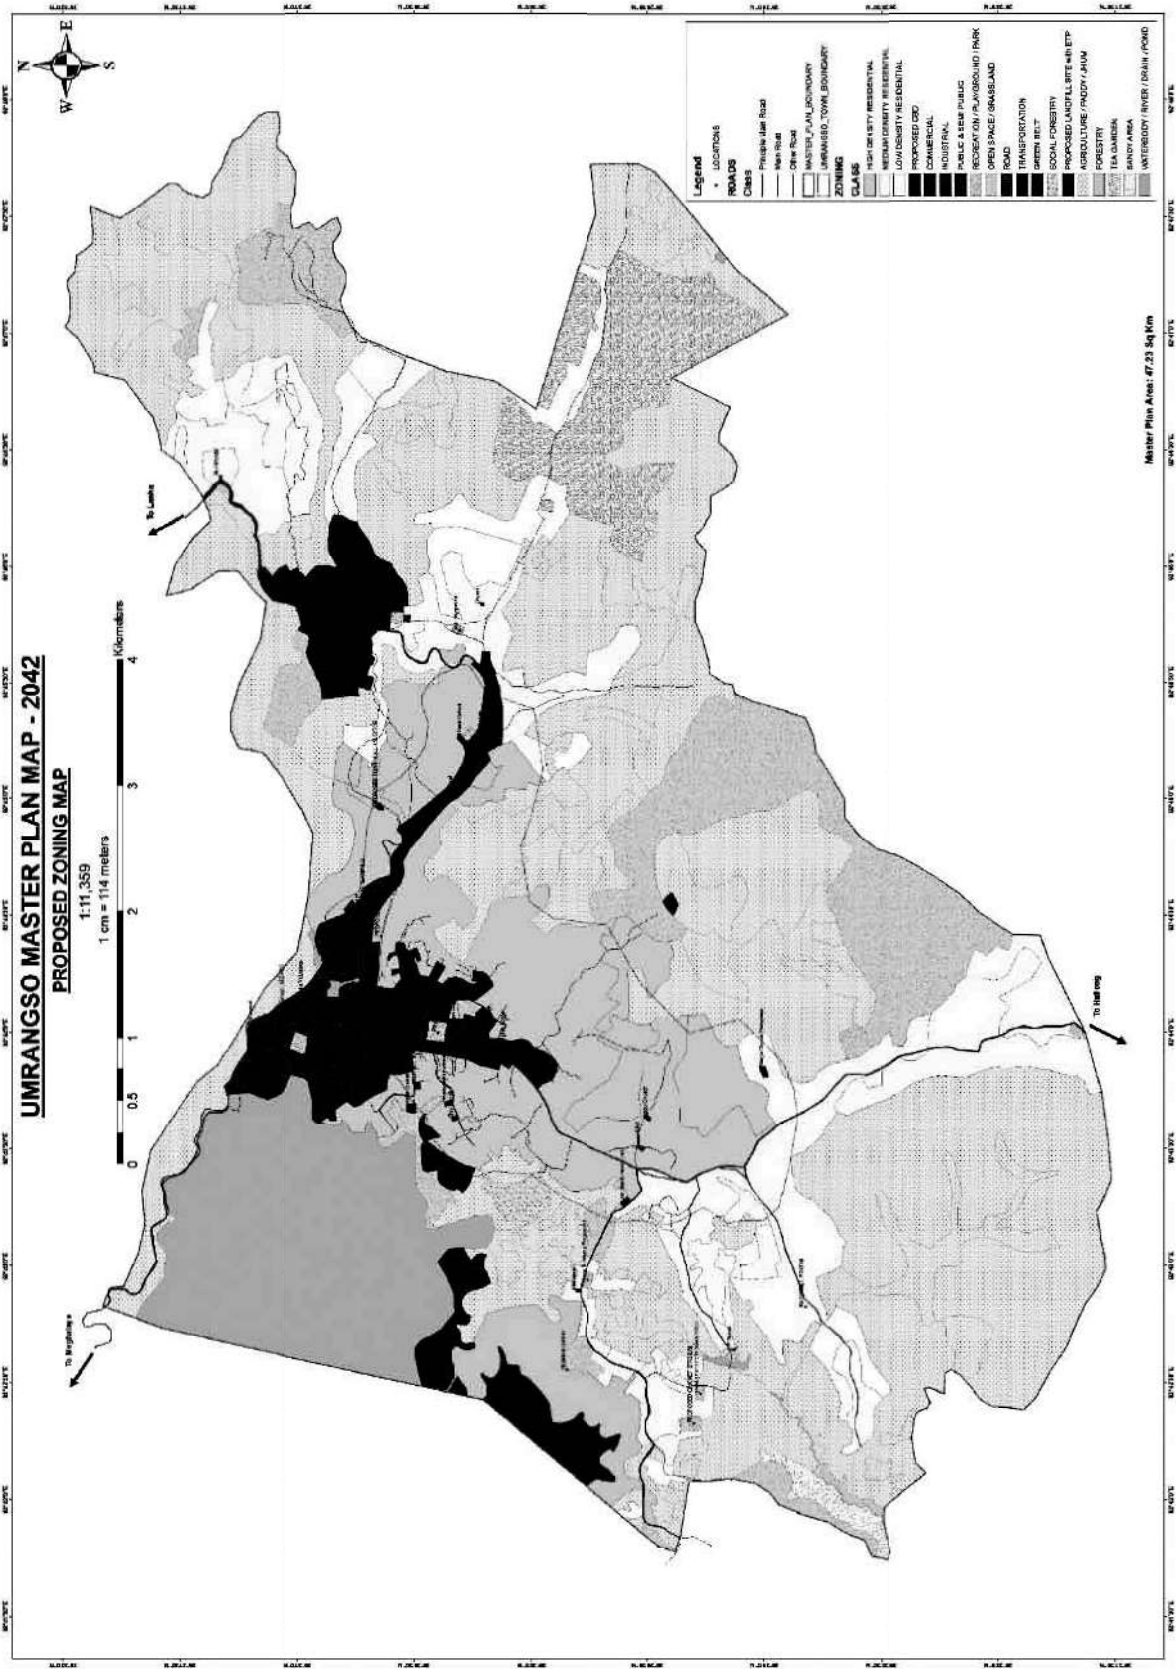

Electricity consumption per capita in Assam is one of the lowest in the country. There are 419 Domestic connections and 160 commercial connections. There are 35 Street light points in the town. The town with minimal power requirement would be met by the ASEB. Sufficient land is available for enhancement of electric substation.

6.3 Social Infrastructure

Based on the Population of Umrangso Master Plan area, as per URDPFI guidelines, it needs to have the basic social amenities like Senior Secondary School (VI to XII) of 1-2 nos. (1.8 ha), one number each of Dispensary (0.08-0.12ha), Community hall, mangal karyalaya, baaraatghar/ library (2000 sqm), Neighbourhood park (1ha), Neighbourhood playground (1.5ha), Local shopping including service centre (4600sqm), Post office counter without

delivery (85sqm), Bank with extension counters with ATM facility (81sqm). Accordingly, few community clubs are seen which is used as a community centre, although it is in dilapidated condition.

There is a requirement of community welfare centre of 0.1-0.15 ha serving a distance of 5-7km (as per UDPFI guidelines). A marriage hall of 2000 sqm (as per URDPFI guidelines) as community centre is proposed in the Master Plan. 4 Shopping Complexes (4600 sqm as per URDPFI guidelines) are proposed in Master Plan to cater to the commercial needs of the growing population. As per URDPFI guidelines, there is a need of 1 neighbourhood park of 1 ha and it is proposed in the Master Plan.

Chapter 7 : ENVIRONMENT AND CITY BEAUTIFICATION PLAN

7.1 Development of Existing River Banks

The town is now faced with deterioration of the river banks near the bridge area which is commercial and institutional areas. The flood protection structure has been damaged over the years and needs urgent repair or reconstruction in the town. The detailed feasibility report is suggested before undertaking the project. The state could take up this project, without having financial burden on the Municipal Board. The Umrangso River and town side development project incorporating the protection, children park and informal shopping areas can be developed with basic amenities.

7.2 Protection of Forest or Social Plantation

The plan proposes to protect the forest and social plantation area from the development and restricts the movement of the people except for the educational and research purposes. The town committee along with the village leaders would identify the forest groves sacred for the community for protection. The traditional method of planting special trees, medicinal plants and other species would be encouraged.

Need to Improve the School and Community Playground

The town would be provided with some community based improvement projects along the major public areas. The land use proposed in the plan seeks to improve the access to the public areas, plantation of local varieties of flowers and vegetations along the current facilities. Community based partnership program would be developed to fund and allocate trained manpower to design the implement such projects.

Tentative cost for improvement for each playground and community places Rs. 65 Lakhs where town have more than three major and 10 minor areas. The community spaces along the junctions and major cross roads can be improved with more calming spaces using the local artisans and their works for display.

7.3 Market Area Redevelopment

The town centre would have amenities for not only daily commuters and market visitors but also for the children seeking recreation spaces. The part of the market area (15 percent) to be developed as the recreation or open gym spaces for the youth and children. The public utilities and rest rooms would be added in the main market under the supervision of the local town committee.

Figure 7.2: A Typical Improvement suggestions in Town

CHAPTER 8 : LANDUSE

Land use survey is to ascertain the existing land use pattern as well as to estimate the present and future need of the planning area. The planning concept and proposals that has been work out in the Final Master Plan for UMRANGSO are based on survey conducted. The preparation of the Master Plan is done based on estimation made for multifarious requirements upto 2041. The land use determines the inter relationship of functional activities. Various proposals have been proposed on the basis of the population projection. As per UMRANGSO Master Plan Data 2022, total Master Plan Area is 20.21 sq.km.

8.1 Existing Landuse

Based on survey in 2022, the existing landuse analysis shows that the primary landuse of the master plan area are 56.24 % agriculture and 8.45 % residential whereas the least is as 0.14% public and semi-public, 0.83% river and water body, and a 0.37% amount of commercial and park/playground. Therefore, to accommodate the physical and social infrastructure of the area the landuse distribution of the proposed master plan needs to be carefully handled.

| Umrangso Existing Landuse | | | |
|----------------------------------|-----------------------------|------------------|-----------------------|
| Sl. No. | Land Use | Area | Percentages to |
| | Category | (Sq. Km.) | Total Area |
| 1 | Residential Use | 8.41 | 17.81 |
| 2 | Commercial Use | 0.36 | 0.75 |
| 3 | Industrial Use | 0.75 | 1.60 |
| 4 | Public & Semi Public Use | 0.92 | 1.95 |
| 5 | Recreational Use | 1.34 | 2.83 |
| 6 | Transport & Communication | 0.32 | 0.68 |
| | Total Developed Land | 12.10 | 25.62 |
| 7 | Agriculture & Bamboo Plants | 30.82 | 65.25 |
| 8 | Water Bodies | 4.31 | 9.13 |
| | TOTAL AREA | 47.23 | 100 |

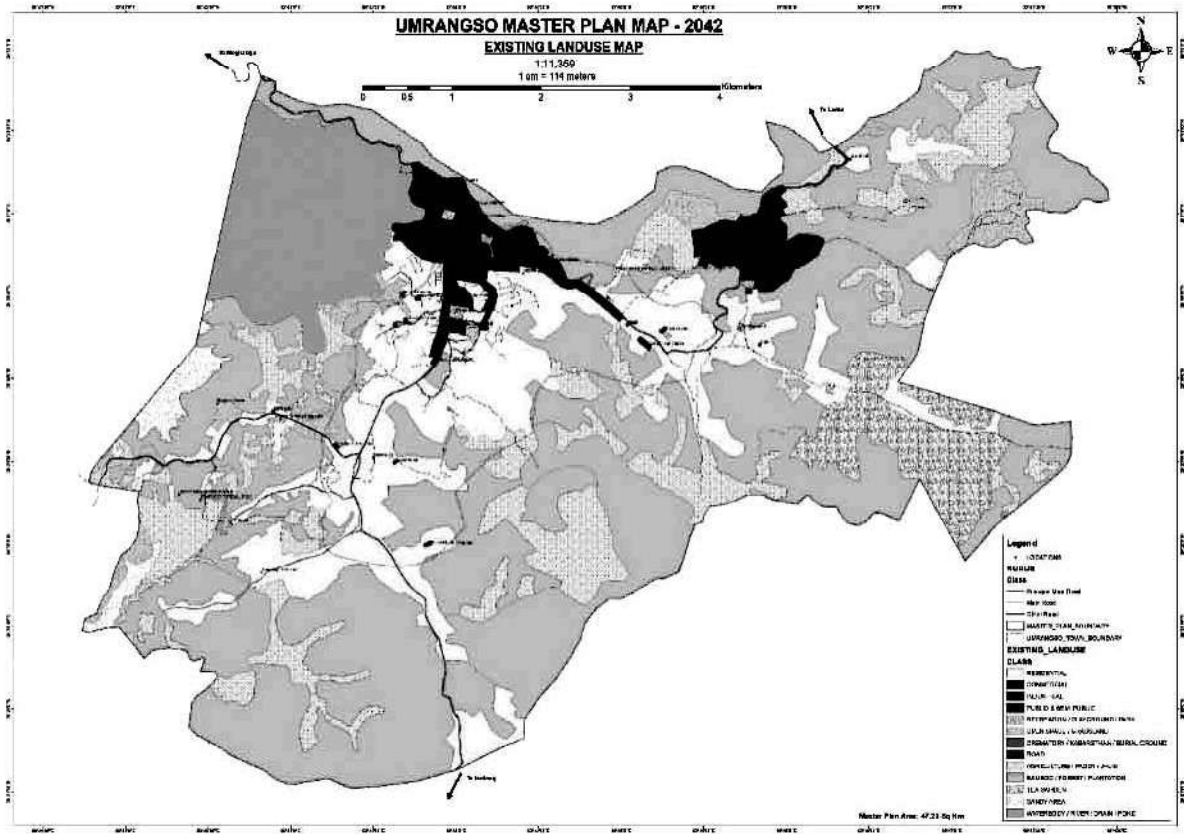

Figure 8.2: Existing Land Use Map of UMRANGSO Master Plan Area (2022)

8.2 Proposed Landuse

In the proposed master plan, the residential area is increased to 16.98%, vacant land is decreased by 11.56%, 14.79% of agricultural landuse is converted to other landuse, Open space, Industrial are increased by 6.2%, and Public and Semi- public is increased by 1.1%. Hence based on these guidelines the following projects is proposed to develop socio cultural and commercial facilities viz- Bus Terminus, shopping complex Auditorium hall, Eco-friendly park, daily and weekly market, Truck Terminal, Harijan Colony and Housing for poor.

| UMRANGSO PROPOSED LANDUSE | | | |
|---------------------------|--------------------------|-------------------|------------------------------|
| Sl. No. | Land Use | Area (Sq. Km.) | Percentages to Total Area |
| | Category | | |
| 1 | Residential Use | 12.53 | 26.53 |
| 2 | Commercial Use | 1.94 | 4.11 |
| 3 | Industrial Use | 1.08 | 2.28 |
| 4 | Public & Semi Public Use | 1.93 | 4.09 |

| | | | |
|---|-----------------------------|--------------|--------------|
| 5 | Recreational Use | 3.86 | 8.18 |
| 6 | Transport & Communication | 1.62 | 3.43 |
| | Total Developed Land | 22.96 | 48.61 |
| 7 | Agriculture & Bamboo Plants | 19.96 | 42.26 |
| 8 | Water Bodies | 3.92 | 8.30 |
| | Green Belt | 0.39 | 0.83 |
| | TOTAL AREA | 47.23 | 100 |

As per UDPFI guidelines, it is suggested to provide 1.0 to 1.2 ha per 1000 persons for town level open spaces (excluding the open spaces in residential pockets), which can be distributed for different residential pockets uniformly for a population of 8000 to 10,000. (Calculation based on the 10-12 mts / person for the entire planned areas). The open spaces are to be developed with other socio cultural and commercial facilities so that they can serve multiple purposes.

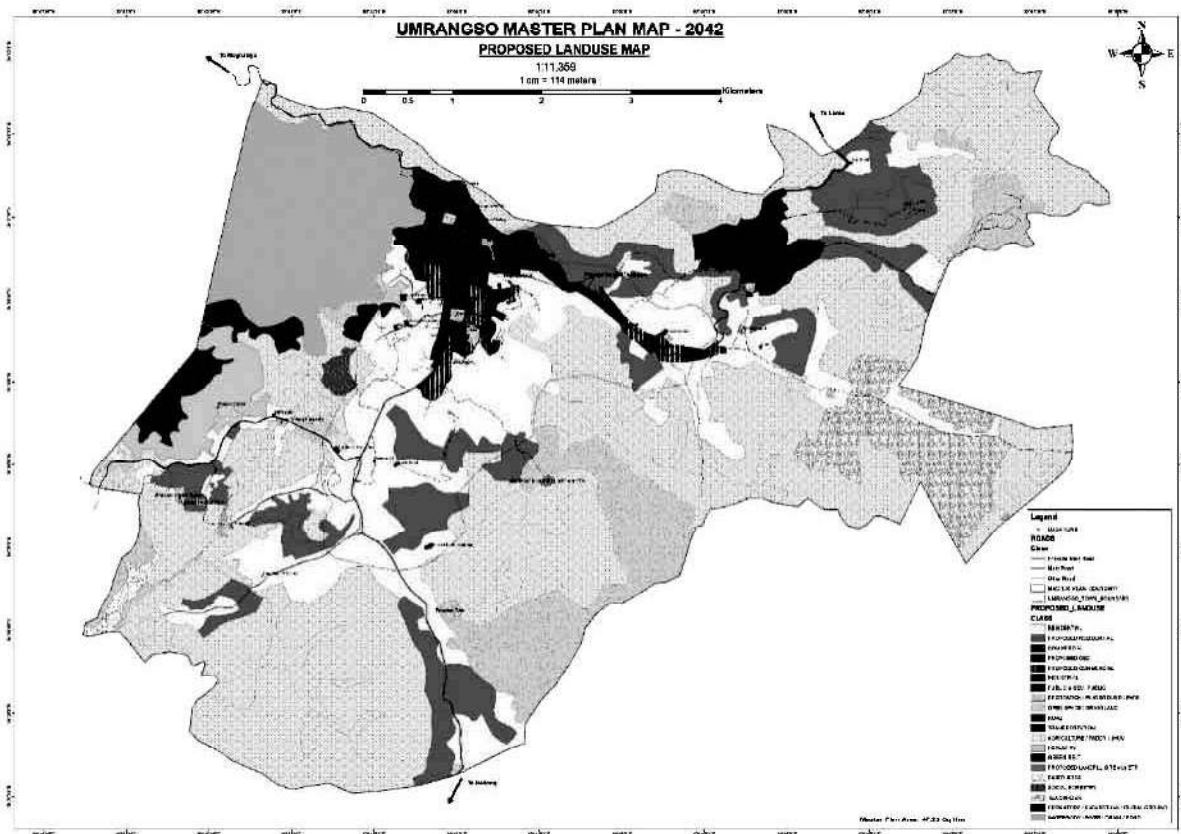

Figure 8.5: Proposed Master Plan of UMRANGSO

8.3 Land Use Plan

Existing land use and proposed land use of UMRANGSO Master Plan area shows that there is increase in Residential (8.53 sq.km), Commercial (0.85 sq.km), Public and semi-public (0.57sq.km), Park and Playground (2.35 sq.km), Transport and Communication (0.78 sq.km), whereas there is decrease in Agriculture (14.79 sq.km). The percentage of the Landuse change is shown in Figure 8.5.

| COMPARISION TABLE | | | | | |
|-------------------|-----------------------------|------------------|--------------|------------------|---------------|
| Sl. No. | Land Use | EXISTING LANDUSE | | PROPOSED LANDUSE | |
| | Category | Area (Sq. Km.) | % | Area (Sq. Km.) | % |
| 1 | Residential Use | 8.41 | 17.81 | 12.53 | 26.53 |
| 2 | Commercial Use | 0.36 | 0.75 | 1.94 | 4.11 |
| 3 | Industrial Use | 0.75 | 1.60 | 1.08 | 2.28 |
| 4 | Public & Semi Public Use | 0.92 | 1.95 | 1.93 | 4.09 |
| 5 | Recreational Use | 1.34 | 2.83 | 3.86 | 8.18 |
| 6 | Transport & Communication | 0.32 | 0.68 | 1.62 | 3.43 |
| | Total Developed Land | 12.10 | 25.62 | 22.96 | 48.61 |
| 7 | Agriculture & Bamboo Plants | 30.82 | 65.25 | 19.96 | 42.26 |
| 8 | Water Bodies | 4.31 | 9.13 | 3.92 | 8.30 |
| | Green Belt | | | 0.39 | 0.83 |
| | TOTAL AREA | 47.23 | 100 | 47.23 | 100.00 |

Table 8.6: Existing and proposed land use of UMRANGSO Master Plan area

8.3.1 Issues and potential

8.3.1.1 Residential

The density of the Master Plan area is 451 persons per sq.km, i.e, 23 persons per sq. km more than the state average. It can be inferred that the area is highly congested and there is need of housing. There will be a need to 1118 housing. Single storied buildings within the Master Plan area can be restructured upto 1-2 more storied to avoid horizontal expansion. 0.39 sq.km of fallow land within the Master Plan area, as per Survey, can be identified as suitable land for housing.

8.3.1.2 Commercial

Commercial area covers approximately 1.89% of the existing UMRANGSO Master Plan area. UMRANGSO Chariali is the main commercial hub of UMRANGSO. Other local markets, weekly and daily markets are also seen within the master plan area. However, the commercial area is very congested and need to immediate improvement. Moreover, as per data, only 37% of the population is working which indicates that there is lack of opportunities in the area. The master plan proposal highly demands infrastructure to boost the employment generation of the region. Hence additional four commercial centres with proper infrastructure is proposed for the master plan.

8.3.1.3 Public and Semi-Public

The Public and Semi-Public landuse includes educational institution, Government offices, Hospital, Temples and Mosques, Museum, Gallery etc. It occupied about 0.21 sq.km of UMRANGSO Master Plan area covering 1.03% of the whole area. There are 6Nos.of educational institutions and 8 Nos. of Govt. offices. within the UMRANGSO Master Plan Area. Few Public and Semi-Public landuse area is proposed to convert into mix-use type of landuse to boost the social infrastructure of the Master plan area.

8.3.1.4 Transport and Communication

Out of total Master Plan Area, 20.21 sq.km is occupied for Transport and Communication facilities covering 2.71% of the whole area. The primary and major roads connect the regional and important places and with neighbouring important towns and other part of the state. The NH-627 and SH-19 runs through the town. All the major towns of Assam regularly bus services operate from the UMRANGSO town. All necessity commodities are brought to the area by the Roadways. Now-a-days bus service link the area with the other places within the state and country. These internal roads are covered by PWD. The North Frontier Railway line connects UMRANGSO Town. The nearest railway station is at Hojai, 21 km away from UMRANGSO. N. F. rail communication also makes the area easily accessible from various parts of the region. However, the transport and communication is yet to develop in the district including the Master Plan area of UMRANGSO..

8.3.1.5 Agriculture

Agriculture is the major source of income for the people of the Master Plan area. It covers 69.74% of the existing landuse. As per data, in the proposed Master Plan area 5.81sq.km of it has been converted to other landuse as per the need of the population projected and the infrastructure of the area. The main crop is Paddy and apart from this Maize, Cauliflower, Chilli, Tomatoes, and

Lettuce are also cultivated. These crops are mainly grown at UMRANGSO according to the climatic condition and season. People use the labour-intensive technique in farming, as there is no technological advancement. The main reason for people to practice agriculture is the Donka River, which is the main source of harvesting the crops.

8.3.1.6 Green Belt

Green Belt includes the Hills and water bodies of the Master Plan area. It covers 0.89% of the existing landuse. As per proposed Master Plan area 0.1 sq.km of it has been converted to other landuse as per the need of the population projected and the infrastructure of the area.

**CHAPTER 9 : PROPOSED PROJECTS'
BRIEF AND TENTATIVE FUNDING SOURCE**

9.1 Priority Sectors and Projects

The consultation and site visit the need for various infrastructure projects was assessed. The suggestive projects for the Master Plan area of UMRANGSO Thirteen (18) main projects can be identified which are:

| <u>LIST OF ROAD</u> | | |
|----------------------------|---|----------|
| Sl. No. | Road | Ward No. |
| 1 | Construction of CC Block Pavement Road at Hebron from Assamese School to Standard English School. | No.5 |
| 2 | Construction of CC Block Pavement Road at Dima Hading from Haflong Road Near Dimaraji English School to Tourist Road. | No.5 |
| 3 | Construction of CC Block Pavement Road at Longrung. | No.9 |
| 4 | Construction of CC Block Pavement Road at Extension Market. | No.6 |
| 5 | Construction of CC Block Pavement Road at Dongjenrazi from Gas Agency Tinali. | No.5 |
| 6 | Construction of CC Block Pavement Road at Saindao Razi Opposite PHE Office. | 200.00 |
| 7 | Construction of CC Block Pavement Road at Jalukpara from Main Market to GST Office. | 150.00 |
| 8 | Construction of CC Block Pavement Road at Gobinda Nagar Approach Road to Crematory. | 500.00 |
| 9 | Construction of CC Block Pavement Road at Gobinda Nagar PHE Water Storage Tank. | 350.00 |
| 10 | Construction of CC Block Pavement Road at Dongjenrazi from opposite RK Warisa Resident. | No.5 |
| 11 | Construction of CC Block Pavement Road at Rongbinong I | No.5 |
| 12 | Construction of CC Block Pavement Road at Saindaorazi from PHE Tinali. | No.7 |
| 13 | Construction of CC Block Pavement Road at Lakeside (Karbi) | No.3 |
| 14 | Construction of CC Block Pavement Road at Langcherui | No.10 |
| 15 | Construction of CC Block Pavement Road at Rongmonjir | No.10 |
| 16 | Construction of CC Block Pavement Road at Tumbung from Golf Field Road to Cricket Stadium. | No.2 |
| 17 | Construction of CC Block Pavement Road at Rongbinong II | No.5 |
| 18 | Construction of CC Block Pavement Road at Rongkhelan | No.5 |

| | | |
|----|--|-------|
| 19 | Construction of CC Block Pavement Road at Gobinda Nagar from Haflong Road to Luapui. | No.2 |
| 20 | Construction of CC Block Pavement Road at Didungrazi | No.3 |
| 21 | Construction of CC Block Pavement Road at Umrongdisa | No.4 |
| 22 | Construction of CC Block Pavement Road Tourist Road to Rongmongve . | No.3 |
| 23 | Construction of CC Block Pavement Road at Longrung Approach Road to Graveyard. | No.10 |
| 24 | Approach Road at Dima Hahing from Tourist Road to Gas Godown. | |
| 25 | Approach Roat at Dima Hading form Tourist Dimadi Raji Via Rongmongve Village . | |
| 26 | Umrongdisa to Kamla Bakan | |
| 27 | Kamla Bagan to Dumping Ground | |
| 28 | Gobinda Nagar to Umrongdisa | |
| 29 | Kopili High School to Didung Razi | |
| 30 | Shivarai Kro Near Tourist Lodge | |
| 31 | Miyungpur to Bhimrazi | |
| 32 | Lanka Road to Dima Ham | |
| 33 | Street Light | |
| 34 | Haflong Road | |
| 35 | Lanka Road | |
| 36 | Tularam Club to Hebron | |
| 37 | Main Market to Rongbinong Via New Garampani | |
| 38 | Haflong Road to Hebron | |
| 39 | Haflong Road to Tourist Lodge Via Dima Haiding | |
| 40 | Haflong Road to Tourist Lodge Via Saindao Raji | |
| 41 | Haflong Road to Karbi Club Via Assamese School | |
| 42 | Haflong Road to Degree College | |
| 43 | Extension Market Road | |
| 44 | Kalibari to Tularam Club Tinali | |
| 45 | Lily Hotel to Royal Academy School | |
| 46 | Royal Academy School to Assamese School | |
| 47 | Lane at Dongjen Raji | |
| 48 | Umrongso Main Road | |
| 49 | Haflong to Lakeside Karbi | |
| 50 | Haflong Road to Vo-Arplaklangso | |
| 51 | Degree College to Vo-Arplaklangso | |
| 52 | Degree College to Kamla Bagan | |
| 53 | Lanka Road to Longrung | |
| 54 | Lanka Road to Rongmonjir | |
| 55 | Golf Course Road | |
| 56 | Gobinda Nagar to Lower Tumbung | |

| | | |
|----|--|--|
| 57 | Jirsong High School Road | |
| | Mast Light | |
| 1 | 15 Km. Tinali | |
| 2 | Longrung Near Shiv Mandir | |
| 3 | MiyungpurTinali | |
| 4 | Near Police Station | |
| 5 | At Parking Lots | |
| 6 | Main Market Near Durga Mandop | |
| 7 | Near Turaram Statue | |
| 8 | At School Complex | |
| 9 | At PHE Tinali | |
| 10 | Near Degree Collage | |
| 11 | Near Karbi Club | |
| 12 | Near Hebron School | |
| 13 | Haflong Road at Approach Road to Vo-Arplak | |
| 14 | Haflong Road at Approach Road to Tourist Lodge | |
| 15 | Dima Haiding Play Ground | |
| 16 | Gobinda Nagar, TumbungTinali | |
| 17 | Gobinda Nagar , Rong-Arting Tinali | |
| 18 | Dima Haiding Play Ground | |
| 19 | Didung Raji | |
| | Busterminal | |
| 1 | Industrial Land | |
| | Cool Storage | |
| 1 | Extention Market | |
| | New Market | |
| 1 | Rong-Arting, Gobinda Nagar | |
| 2 | Langcherui Junction | |
| | Waiting Shed | |
| 1 | Rong-Arting Tinali | |
| 2 | Haflong Road at approach Road to Vo-Arplak | |
| 3 | Haflong Raod near Dimarazi English School | |
| 4 | At Degree Collage | |
| 5 | At Garampani Hospital | |
| 6 | At Umrongso parking Plot | |
| 7 | Lanka Road at Approach Road to Miyungpur | |
| 8 | Longrung Near Shiv Mandir | |
| 9 | Langcherui Junction | |
| 10 | Bhim Razi | |
| 11 | Gobinda Nagar Point | |
| | Garbage Stockyard | |
| 1 | Rong-Arting | |
| 2 | Gobinda Nagar 3 Nos. | |

| | | |
|--------------------|----------------------------|--|
| 3 | Dima Hading 3 Nos. | |
| 4 | PHE Area 3 Nos. | |
| 5 | Near Garampani High School | |
| 6 | Dongjenraji 10 Nos. | |
| 7 | At Parking Plot | |
| 8 | Near Police Station | |
| 9 | Longrung Area 2 Nos. | |
| 10 | Langcherui Junction | |
| Guest House | | |
| 1 | At Gobinda Nagar | |

These projects could up lift the development and growth of UMRANGSO creating a smooth and hassle free socio-economic life for the residents of UMRANGSO Town along with infrastructure development. The proposed land use maps incorporate the land area into the zoning requirements. The projects can be completed during the plan period i.e. year 2022 to 2042.

9.2 Fund Requirement

For the identified Twelve (18) main projects of Master Plan area of UMRANGSO the tentative fund requirement are as follows:

| Sl. No. | Project | Location | Land availability | Area of Land | Nos. | Amount (in Rs. Crores) |
|---|---|-------------------|-------------------|--------------|------------|------------------------|
| 1 | Construction of Roads | As per List Above | Yes | 1.5 bigha | 1 | 0.25 |
| 2 | Bus Terminal | As per List Above | Yes | 3 katha | 1 | 0.30 |
| 3 | Cold Storage | As per List Above | Yes | 1.5 bigha | 1 | 0.25 |
| 4 | Construction of New Market & Waiting Shed | As per List Above | Yes | 2 bigha | 1 | 0.08 |
| 5 | Garbage Stock Yard | As per List Above | Yes | 3 bigha | 1 | 0.40 |
| 6 | Guest House | As per List Above | Yes | 1 Bigha | 1 | 1.80 |
| Total Project Expenses in Town | | | | | Rs. | 235.58 |
| The above project is based on the town committee Reference No. BMB/Administrative/26/2021-22/3640 Dated 4/4/2022. | | | | | | |

The net fund requirement is estimated to be **Rupees Two Hundred Thirty Five Crores Fifty Eight Lakh Only (Rs. 235.58 Crores)** for the coming plan period (2022-2042).

The basic infrastructure projects must be given with priority along with the flood control projects. The project listed may be altered or modified or rejected based on the site condition, administrative capacity and technical feasibility of the individual project components.

The capacity both technical and administrative must be enhanced before initiation of the projects. The town committee along with the constituents villages and community must have consent and ability to complete the projects. The proposed projects would have capacity to make the town competitive and infrastructure ready for future generation.

9.3 Indicative Sources of Fund:

The tentative source of funding for the above mentioned projects are:- AMRUT, Infrastructure Development Fund, Entry Tax, SOPD, Grant-in-aids both Central & State Govt. and State Finance Commission.

CHAPTER 10: DISASTER MANAGEMENT PLAN

UMRANGSO Master Plan area is served with 1 fire and emergency service station at present. The whole district is vulnerable to draught and as no such natural water reservoir is there in the district from where the water can be irrigated. Few villages of the UMRANGSO master plan area are vulnerable to flood because of the Donka River and man made flood. The region is very much vulnerable to earthquake due to its weak geography and fragile geomorphology being in the most dangerous Seismic Zone i.e. Zone (V). The whole region is sitting on the bed of limestone and hence very fragile. As per UDPFI guidelines there is requirement of a Disaster Management Centre of 1ha area to serve the people of the Master Plan area.

10.1 Pre-Disaster Preparedness

The Fire Services department being the nodal agency for disaster management, should identify vulnerable areas e.g. areas with high density and poor accessibility in the city and propose suitable measures. The department should make people aware about after effects of disaster particularly school children through mock drills in school, media campaigns and advertisements about emergency procedures and location of emergency shelters etc. Mock drills need to be done also in government and public offices from time to time.

10.2 Post Disaster Preparedness

It has been observed that any disaster is generally followed by break down of communication lines and disruption of essential services. Also the district is vulnerable to various terrorist groups. UMRANGSO being the bordering area of Assam and Meghalaya is also vulnerable to clashes between borders. Therefore, the key communication centres should be safely located to be free from natural disasters e.g. flood, fire, landslide, earthquake or any other emergency situation.

10.3 Plan Implementation

The Master Plan implementation requires (i) development of new areas (ii) redevelopment of existing developed areas and (iii) conservation of eco sensitive areas. 'Office of the Deputy Director, Town and Country Planning, Karbi Anglong, Diphu, Assam' shall be the nodal agency for the UMRANGSO Master Plan implementation. Landuse plan, land use zoning, sub-division and development control regulations including local building byelaws would in general be the base for all development, and redevelopment in the Master Plan area.

ZONING REGULATION:

XI. CHAPTER 11 : ZONING REGULATION

11.1 SCOPE:

11.1.1. The Schedule lays down regulations for the use of land and buildings built thereon consistence with maintaining minimum standards of density of buildings, protection of open spaces, sanitation and environmental hygiene.

11.1.2. The Zoning Regulations should be read in conjunction with the zones proposed in the Master Plan.

11.2 DEFINITION:

For the purpose of these regulations, the following definition shall apply.

11.2.1. Words used in the present tense shall include the future; the singular number also includes the plural and the plural also the singular.

11.2.2. “Agriculture” includes horticulture , farming , growing of crops , fruits vegetable , flowers grass , fodder , tress of any kind of cultivation of soil , breeding and keeping of livestock including cattle , horse ,donkeys mules , pigs , fish , poultry and beast the use of land which is ancillary to the farming of land or any other agriculture purpose ,but shall not include the use of any land attached to the building for the propose of a garden to be used along with such buildings and “Agriculture “ shall be construed accordingly .

11.2.3. “Authority” shall mean the local , regional or any other “Authority” appointed by the State Government for the purpose of administering the Act. Unless appointed by the State Government the Authority in the case of Municipal Areas shall be taken to mean the Municipal Board for the area constituted under the Assam Municipal Act. 1956 (Assam Act XV of 1957) .

11.2.4. “Boarding House” means a building or part of a building in which is carried on wholly or partially the business of the supply of meals to the public or a class of the public for consumption in the premises.

11.2.5. “Building” ant construction for whatsoever purpose and of whatsoever materials construction and every part thereof whether used as human habitation or not and includes foundation , plinth wall , chimneys , drainage works , fixed platforms , verandah , balcony , cornice of projection , par of building or anything affixed thereto or any wall enclosing or intended to enclose any land or space .

11.2.6. “Building of Accessory Use” - a subordinate building , use of which is incidental to that of a principal building on the same plot such as garage , coal or woodshed , peon’s quarter , etc .

11.2.7. “Building Height of” – the vertical distance measured , in the case of flat roofs from the average level of the centre line of the adjoining street to the highest point of the building adjacent to the street wall , and in the case of pitched roofs, upto the point where the external surface of the outer wall intersects the finished surface of the sloping roof and in the case of gables facing the road , the mid-point between the eaves level and level the ridge , Architectural features serving no other function except that of decoration shall be excluded for the purpose of taking heights . If the building does not abut on a street, the height shall be measured above the average level of the ground and contiguous to the building.

11.2.8 “Building Set Back”- the distance by which any building or structure shall be separated from the boundary lines of the plot.

11.2.9 “Clean Industry”- industries which do not throw out any smoke, fume, noise, offensive odour harmful industrial wastes and employing not more than 10 workers with or without power.

11.2.10. “Commerce”- means carrying on any trade , business of professional sale or exchange of goods of any type whatsoever , and includes the running of with a view to make profit , Hospitals, Nursing Homes , infirmaries , education institutions and also includes hostel , clubs , theatres , restaurants , boarding house not attached to any educational institution , series and “Commercial” shall be construed accordingly .

11.2.11. “Commercial Use”- includes the use of any land or building or part thereof for purpose of commerce as defined or for storage of goods, or as an office, whether attached to industry or otherwise.

11.2.12. “Coverage”- is the percentage ratio of the plinth area of the main and accessory buildings to the total area of the plot.

11.2.13. “Customary Home occupation”- means occupation other than that of operating an eating or drinking place offering services to the general public carried on by a member of the family residing on the premise and in accordance with which there is on display that will indicate from the exterior that the building is being utilized in whole or in part for any purpose other than that as a dwelling and in connection with which on article or service is sold or held up for sale except that produced by a member of the family residing on the premises and no mechanical equipment is used except as is customary for purely domestic or household purpose .

11.2.14 “Development” – means the carrying out of building, engineering, mining or other operations in on over or under the land, or making of any material change in the use of any building or of land.

Provided that the following operations or uses of land shall not be deemed for the purposes of these Regulations to mean Development of the land, that is to say ---

- (a) The carrying out of works for the maintenance , Improvement or other alteration of any building being works which affect only the interior of the building or which do not materially affect the use and the external appearance of the building ;

(b) The carrying out by a local or statutory authorities of any works required for the maintenance or improvement of road , being works carried out on land within the boundaries of the road :

(c) The carrying out by local authority any works for the purposes of inspecting , repairing or renewing any sewers , main pipes , cables or other apparatus including the breaking open of any street or other land for that purpose:

(d) The use of any building or other land within the cartilage of a dwelling house for any purpose incidental to the enjoyment of the dwelling house as such.

11.2.15. “Development Schemes”- means the scheme for the development or redevelopment or improvement of the UMRANGSO master plan Area or any part thereof.

11.2.16. “Dwelling”- a building or a portion thereof which is designed or used wholly or principally for residential purpose. This shall not include boarding or rooming house, tents, tourist camps, hostel or other structures designed or used primarily for transient residents.

11.2.17. “Family”- a group of individuals normally related in blood or connected by marriage living together as a single house- keeping unit and having a common kitchen. Customary domestic servants shall be considered adjunct to the term ‘Family’.

11.2.18. “Floor Area”- shall mean useable covered area of a building at any floor level.

11.2.19. “Floor Area Ratio (FAR)”- means quotient obtained by dividing the total covered area (plinth area) on all floors by the area of the plot. Multiplied by 100.

$$\text{FAR--- means covered area of all floors X 100} \\ \text{Plot area}$$

11.2.20. “Hotel”- means a building or a part of a building used as a lodging and boarding house.

11.2.21. “Industry”- includes the carrying of any manufacturing process as defined in Factories Act. 1984; and “industry” shall be constructed accordingly.

11.2.22. “Industry use”- includes the use of any land or building or part thereof for industry as defined.

11.2.23. “Light Industry”- industries which do not throw out excessive smoke noise , offensive odour or harmful industrial wastes , employing not more than 100 workers and using power of not more than 100 I.P. such industries ,except in the case of foundries and smithies do not consume any solid fuel .

11.2.24 “Lodging House”- means a building or a part of building used for the reception of guests and travellers desirous of staying or sleeping therein.

11.2.25 “Medium industry”- medium industries are those which employ more than 100 workers and may use any kind of motive power of fuel, subject of course to toxious features. Factories which are classified as heavy industries under the Factories Act do not come under this category.

11.2.26 “Non-Conforming building or use”- a building structure or use of land existing at the time of commencement of these regulations and which do not conform to the regulations pertaining to the zone in which it is situated .

11.2.27 “Occupier” includes—

- (a) a tenant ;
- (b) an owner in occupation of , or otherwise using his land ;
- (c) a rent free tenant of any land ;
- (d) a license in occupation of any land ; and
- (e) any person who is liable to pay to the owner damage for the use and occupation of any land ;

11.2.28. “Open Space” – means any land whether enclosed or not on which not more than one twentieth part is covered with building and whole of the remainder has been laid out as a public garden or used for purpose of recreation or lies waste and unoccupied .

11.2.29 “Owner”- includes a mortgagee in possession , a person who for the time being is receiving or is entitled to receive , or has received , the rent or premium for any land whether on his own account of or on behalf or for benefit of any other person or as an agent , trustee , guardian or for any other person or for any religious or charitable institution , or who would so receive the rent or premium or he entitled to received the rent or premium if the land where let to a tenant ; and includes the Head of a Government of. General Manager of a Railway , the Secretary or other Principal officer of a Local Authority , Statutory Authority or company , in respect of properties under their respective control .

11.2.30 “Parking Space”- means an area enclosed or unenclosed sufficient in size to store one or more automobiles or any other conveyance together with a driver way connecting the parking space with a street , or alley and permitting ingress or egress of all such conveyances .

11.2.31 “Plinth”- means the portion of a structure between the surface of the surrounding ground and surface of the floor, first above the ground.

11.2.32 “Plinth Area”- means the built up covered area measuring at the floor level of the basement or of any story.

11.2.33 “Plot” – a piece of land occupied or intended for occupancy by a main building or use together with its accessory building and uses customary and incidental to it , including the open spaces required by these regulations and having frontage upon a street or upon a private way that has officially being approved by the competent authority .

11.2.34 “Plot Width”- the shorter distance from one side of the plot line to the other measured through that part of the plot to be occupied by the building.

11.2.35 “Prescribed” - means prescribed by rules and regulations under the Assam Town and Country Planning Act 1959 (as amended).

11.2.36 “Public and Semi-Public Place”- means any place or building which is open to the use and enjoyment of the public , whether it is actually used or enjoyed by the public or not , and whether the entry is regulated by any charge or not .

11.2.37 “Repairs”- means any renovation applied to any structure, which does not in any way changed the specification of the structure but saves the structure from further deterioration.

11.2.38 “Residence”- includes the use for human habitation of any land or building or part thereof including gardens , grounds , garages , stables and out houses , if any appertaining to such building and ‘residential’ shall be construed accordingly .

11.2.39 “Required Open Space”- the space between the plot lines and the minimum building set back lines.

11.2.40 “Roads or Street”- any highway , street , lane path way , alley , stairway , passage way , carriage-way ,footway , square place or bridge , whether a thoroughfare or not over which the public have a right of passage or access or have passed and had access uninterruptedly for a specified period , whether existing or proposed in any scheme and includes all bunds, channels, ditches, storm water, drains, culverts, sidewall, traffic island, roadside trees and hedges, retaining walls, fences, barriers and railway within the road lines .

11.2.41 “Service Industry” industries which are not engaged in the manufacture of goods or articles, but are mainly concerned with repairs, maintenance, servicing and or other jobbing work.

11.2.42 “Set back line” means a line usually parallel to the plot boundary and laid down in each case by the authority beyond which nothing can be constructed towards the plot boundary.

11.2.43 “Site”- of a building includes not only the land actually covered by the building but also the open spaces around the building required under these rules.

11.2.44 “Storey” the portion of a building included between the surface of any floor and the surface of the floor next above it or if there be no floor above it, then the space between any floor and the ceiling next above it.

When measured, the height of a habitable basement extending at least 5 feet above ground level or a habitable attic shall be counted as storey.

11.2.45 “Street line”- means the line defining the site limits of a street.

11.2.46 “Structure” any combination of material including building constructed or erected the use of which requires location on the ground including among other things, signs, signboards, fences and wall that are more than three feet height.

11.2.47 “To Abut”- means to abut on a road such that any portion of the building is facing the road boundary.

11.2.48 “To construct” means to erect, re-erect, and make material alterations.

11.2.49 “to Erect” to construct a building for the first time or to re-construct existing building after demolishing it according to some fresh or revised plans.

11.2.50 “Total floor area” – the area of all floors of a building including habitable attics and basements.

11.2.51 “ To make Material alteration”- to make any modification in any existing building by ways of an addition or alteration, or any other change in the roof window, door, compound, sanitary and drainage system in any respect whatsoever, Opening of a window and providing inter communication doors shall not be considered as material alterations. Similarly modification in respect of gardening, wheel washing, painting, retailing and other decorative works shall not be deemed to be deemed to be material alterations, it further includes:-

- (a) Conversion of a building or any part thereof for human habitation as one dwelling house into more than one dwelling house and vice-versa;
- (b) Conversion of a building or a part thereof suitable for human habitation into a dwelling house or vice-versa;
- (c) Conversion of a dwelling house or a party thereof into a shop, warehouse or factory or vice-versa.
- (d) Conversion of a building used intended to be used for one purpose such as shop, warehouse or factory, etc. Into one or another purpose.

11.2.52 “To Re-erect” – to construct for a second time or subsequent time a building or part of a building after demolishing it on the same plan as has been previously sanctioned.

11.2.53 “Water Course:- means a natural channel or an artificial one formed by draining or diversion of a natural channel meant for carrying storm water either from a single property or several properties draining thereof in combination .

11.2.54. “Warehouse”- means a building the whole or substantial par of which is used or intended to be used for the storage of goods whether for keeping or for sale or for any similar purpose but does not include a store room attach to , and use for the proper functioning of a shop .

11.2.55. “Yard”- means an open space at ground level between a building and the adjoining lines of the plot unoccupied and unobstructed except by encroachment or structures specifically permitted by these byelaws on the same plot with a building. All yard measurement shall be the minimum distance between the front, rear and side yard- plot boundaries, as the case may be, and the nearest point of the building including enclosed or covered porches. Every part of every yard shall be accessible from every other part of the same yard.

11.2.56 “yard front” – means a yard extending across the front of a plot between the side yard lines and being the minimum horizontal distance between the street line and the main building or any projection thereof other than steps , unenclosed balconies and unenclosed porches .

11.2.57 “yard rear” – means a yard extending across the rear of a plot measured between a plot boundaries and being the minimum horizontal distance between the rear plot boundary and the rear of the building or any projection other than steps. Unenclosed balconies or unenclosed porches. In a corner plot the rear yard shall be considered as parallel to the street upon which the plot, has its least dimension. In both the corner and interior plots the rear yard shall be at the opposite end of the plot from the front yard .

11.2.58 “Yard side “ – means a yard between the building and the side line of the plot and extending from the front line to the rear of the plot and being the minimum horizontal distance between the side boundary line and the sides of a building of any other projections other than stops unenclosed balconies or unenclosed porches .

The UMRANGSO Master Plan area is hereby divided in to the following six zones shown on the accompanying Zoning Map which together with all explanatory matters thereon , is hereby declared to be a part of these regulations .

11.3 CLASSIFICATION OF ZONES AND ESTABLISHMENT OF ZONING MAP

11.3.1. The zones designated under 3.1 may be further

Where non-conforming use status applied to a structure and premises in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land.

- a) Low Density
- b) Medium Density
- c) High Density
2. Commercial Zones.
3. Industrial Zones –
 - (a) Light Industry
 - (b) Medium Industry
4. Public and Semi-public Zone
5. Recreational and Open Space Zone
6. Green Belt Zone.

11.3.2 The Zones designated under 3.1 may be further divided into sub-zones by the authority where it deems it expedient, the designation of such sub-zones being dependent on the special use to which each such sub-zones is being utilized.

11.3.3. Zone boundaries of each zone shall be as established in the zoning Map of the UMRANGSO Master plan area and a copy of which shall be located in the office of the local authority in a place easily accessible to the public which be the final authority as to the current zoning status of land and water area building and other structure in the UMRANGSO Master Plan area.

11.3.4. Interpretation of zone boundaries – where uncertainly exists as to the boundaries of zones as shown on the zoning Map, the following result shall apply:-

- (a) Boundaries indicated as approximately following the centre lines of streets, highways or alleys shall be construed to follow such centreline.
- (b) Boundaries indicated as approximately following established plot boundaries shall be construed as following such plot boundaries.
- (c) Boundaries indicated as approximately following the centre lines of streams, river canals, lakes or other bodies of water shall be construed to follow such centre lines.
- (d) Boundaries indicated as parallel to or extension of features indicated in sub-sections (a) to (c) above shall be so construed distances not specially indicated on the zoning Map shall be determined by the scale of the map.
- (e) Where physical or cultural features existing on the ground are at variance with those shown on the zoning Map, or in other circumstances not covered by sub-section (a) through (d) alone, the Director of Town & country planning shall interpret the zone boundaries.

11.3.5. No changes of any nature shall be made in the zoning Map except in conformity with the procedures set forth in these Regulations. Any unauthorized change of whatever kind by any person shall be considered a violation of these Regulations and punishable as provided under clause 16 of these Regulations.

11.3.6. Regardless of the existence of purported copies of the official zoning Map which may from time to time be made or published, the official zoning Map which shall be located in the office of the local authority in a place easily accessible to the public shall be the final authority to the current zoning status of land and water areas, building and other structures in the planning area.

11.4 APPLICATION OF ZONING REGULATION:

11.4.1. The requirement of this Regulation within each zone shall be the minimum requirement and shall apply uniformly to each class or kind of structures or land except as hereinafter.

11.4.2. No building, structure, or land shall hereafter be used or occupied and no building or structure or part of the building shall hereafter be erected, re-erected or materially altered unless in conformity with all of the regulations herein specified for zone in which it is located.

11.4.3. No building or other structure shall hereafter be erected re-erected or materially altered.

- (a) To exceed the height.
- (b) To accommodate or house a greater number of families.
- (c) To occupy a greater percentage of plot area.
- (d) To have narrower or smaller rear yards, front yards, side yards or other open spaces than herein required, or in any other manner contrary to provisions of these regulations.

11.4.4. No part of a yard or other space, or off street parking or loading space required about or in connection with any building for the purpose of complying with this regulation shall be included

as part of a yard, open space, or off street parking or loading space similarly required for any other buildings.

11.4.5. No yard or plot existing at the time of coming into force of these regulation shall be reduced in dimension or are below the minimum requirements set forth herein ; yard or plots created after the effective date of these regulations shall meet at least the minimum requirement established by these Regulation .

11.4.6. Non-conforming plots, non-conforming uses of land, non-conforming structures and non-conforming use of structure and premises;

11.4.6.1. Within the zones established by these regulations or amendments that may later be, adopted therein existing plots, structures and uses of land and structures which were lawful before these regulations came into force or were amended, by which would be prohibited, regulated, or restricted under the terms of these regulations or future amendments, shall be permitted to continue until they are removed. Such uses are declared by these regulations to be incompatible with permitted uses in the zones involved. Such non-conformities shall not be enlarged, upon, expanded or extended nor be used as grounds for adding other structures or uses prohibited elsewhere in the same zone.

11.4.6.2. A non-conforming use of a structure, a non-conforming use of land or a non – conforming use of a structure and land shall not be extended or enlarged after coming into force of these regulations by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be prohibited generally in the zone involved.

11.4.6.3. Nothing in these regulations shall be deemed to require a change in the plans, constructions, or designated use of any building on which actual construction was lawfully begun prior to the coming into force of these regulations and upon which actual building construction has been diligently carried on. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner; except that where demolition or removal of an existing building has been substantially begun preparatory to rebuilding as demolition or removal shall be deemed to be actual construction provided that work shall be diligently carried on until completion of the building involved.

11.4.6.4. If two or more plots or combinations of plots and portions of plots with continuous frontage in single ownership are of the record at the time of coming into force or amendment of the regulations and if all part of the plots do not meet the requirement for plot width and area as established by these regulations , the land involved shall be considered to be an undivided parcel for the purposes of these regulations and no portion of said parcel shall be used or sold which do not meet plot width and area requirements established by these regulations , nor shall any division of the parcel be made which leaves the remaining plot with width or area below the requirements stated in these regulations .

11.4.6.5. Non-conforming uses of land – Where on the date of coming into force of these regulations or amendments thereto lawful use of land exists that is made no longer permissible

under the terms of these regulations as enacted or amended such use may be continued , so long as it remains otherwise lawful , subject to the following provisions :-

- (a) No such non-conforming use shall be enlarged or increase, nor extended to occupy a greater area of land than was occupied on the date of coming into force of these regulations or amendments thereto.
- (b) No such non-conforming use shall be moved in whole or in part to any other portion of the plot or parcel occupied by such use on the date of coming into force of these regulations or amendments thereto.
- (c) If any such non-conforming use of land ceases for any reason for a period of more than 30 days any subsequent use of such land shall conform to the requirements specified by these regulations for the zone in which such is located.

11.4.6.6. Non-conforming structure – where a lawful structure exists on the date of coming into force of these regulations or amendments thereto that could not be built under the terms of these regulations by reason of restriction on area, plot coverage, height yards or other characteristics of the structure of its location on the plot such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:-

- (a) No such structure may be enlarged or altered in a way which increases its non-conformity.
- (b) Should such structure be destroyed by any means to an extent of more than 50 percent of its replacement cost at the time of destruction, it shall not be re-constructed except in conformity with the provisions of these regulations,
- (c) Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the requirements for the zone in which it is located after it is moved.

11.4.6.7. Non-conforming uses of structures- If a lawful use of a structure, or of structures and premises in combination, exists on the date thereto of coming force of these regulations or amendments that would not be allowed in the zone under the terms of these regulations the lawful use may be continued so long as it remains otherwise lawful subject to the following provisions:-

- (a) No existing structure devoted to a use not permitted by these regulations in the zone in which it is located shall be enlarged, extended, constructed, re-constructed, moved or structurally altered except in changing the use of the structure to use permitted in the zone in which it is located;
- (b) No such non-conforming use shall be enlarged or increased or extended to occupy a greater area of the building that is occupied by such use the time of coming into force of these regulations or amendments thereto;
- (c) Any structure, or structures and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the requirements of these regulations for the zones in which such structure is located, and the non-conforming use may not there-after be resumed; when a conforming use of a structure, or structures and premises in combination is discontinued or abandoned for six consecutive months or for 18 months during any three year period, he structure or structures and premises in

combination, shall not thereafter be used except in conformance with the regulations of the zone in which it is located.

11.4.6.8. Repairs and Maintenance – One any building devoted in whole or in part to any non-conforming use, work may be done in any period of 12 consecutive months on ordinary repairs, or on repair or replacement of non-load-bearing walls, fixtures, writing or plumbing, to an extent not exceeding 10percent of the current replacement value of the building, provided that ;the cubic contents of the building as it existed at the time of coming into force of these regulations or amendments thereto shall not be increased.

Nothing in these regulations shall be deemed to prevent the strengthening to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety upon order of such official.

11.4.6.9. Uses under Exception Provision not non-conforming uses – Any use for which a special exception is permitted as provided in these regulations shall not be deemed a non-conforming use, but shall without further action be deemed a conforming use, in the zones in which it is permitted.

11.4.7. “Accessory Use”- the term Accessory use shall not include:-

- (a) Any use not on the same plot, with the use to which it is accessory, unless authorized by the authority;
- (b) Any use not customarily incident to a permitted use;
- (c) Any use detrimental to the neighbourhood by reason of emission of smoke, noise, odour, vibration, dust or fumes;
- (d) Storage of more that two commercial automobiles except on an agricultural piece of land;
- (e) A secondary dwelling on the same plot with a main dwelling, unless each building shall have at least the open space and equivalent plot size as required by Clause 4.8;
- (f) Advertising signs excepting signs not more that 10 sq.ft. or 0.9 sq.m in total area pertaining to the lease, sale or use of a plot or building on which they are placed. On a plot occupied by a dwelling there shall not be more than two signs with a total area of 2 square feet or 0.18 sq.m. per sign for each family house;

11.4.8. Yards and Open Spaces:--

- (a) Each structure hereafter erected, re-erected or materially altered shall be provided with specific front, side and near yard;
- (b) On plots occupied by building only, not exceeding 30 percent of the near yard may be occupied by one storied building of accessory use;
- (c) Special type of Building- Subject to the requirements of set-backs from prescribed street lines and side and near yards under the representative Rules no building used for Theatres, Cinema Halls, Concerts or Assembly Hills, Stadium, buildings intended for Religious worships, Hospital or Dispensary buildings, Markets, Exhibition Halls or Museum and other such buildings shall have an open space of not less than 25 ft. or 7.5 m. from the front boundary and 15 ft. ,or 4.5.m. from the side and near boundaries of the plot on which such building are construction.

11.4.9. Visibility at Intersections in Residential Zone- On corner plot in any residential zone nothing shall be erected, placed, planted or allowed to grow in such a manner as materially

impede vision between a height of two and half and ten feet above the centre line levels of the intersecting streets in the area bounded by the street lines of such corner plot and a line joining points along said lines 50 ft. or 15.0 m. from the point of the intersection.

11.4.10. Building abutting two or more streets- When a building abuts two or more streets the setbacks from the streets shall be such as if the building was fronting each such street.

11.4.11. Means and Access:-

(a) No building shall be constructed on any plot for any-use where there is no means of access to such plot;

(b) Notwithstanding anything prescribed in the Master Plan the widths of such access or lanes, roads etc. to one individual plot or plots whether private or public shall be prescribed by the Authority;

11.4.12. The authority may prescribe a line on one or both sides of any public or private road or street and no person shall construct, re-construct or materially alter any portion of any building or structure on land within such prescribed street line.

11.4.13.1. If any building or structure or part of a building or structure abutting on a public or private road or street is within such line of the street, the Authority may required such building or structure to be set-back beyond such prescribed line to a distance as prescribed in these regulations, whenever it is proposed:-

(a) To re-build such building or structure or to take sown such building or structure;

(b) To remove, re-construct or make any addition to or structure alteration in any portion of such building or structure which is within such regular prescribed street line.

11.4.13.2. When any building or structure or any part thereof within the prescribed line of street falls down or is burnt down or is taken down the Authority may at one take possession of the portion of land within the prescribed line of street previously occupied by the said building or structure and if necessary clear the same under the provisions of the Assam Town and Country Planning Act,1959 (as amended)

11.4.14. Land Subdivision and Layouts- Except as otherwise provided, no land will be developed or sub-divided and no layouts on land shall be prepared, altered, done or executed unless in conformity with these regulations herein specified for the zones in which the land is located.

11.4.15. Fences, walls and hedges- Notwithstanding any other provision in these regulations, fences, walls and hedges may be permitted in any required yard, or along the edge of any yard provided that no fence, wall or hedge along the sides or front edge of any front year shall be over 3 ft. or 0.0 m. in height:

11.4.16. Off-street parking space for Motor Vehicles, Scooters and Cycles-

(a) Off-street parking space shall be provided on any plot on which the uses specified in the Table –I are hereafter established; such parking space shall be provided with adequate vehicular access to a street.

(b) Each off-street parking space provided shall not be less than 18 Sq.m. (200 Sq.ft.), 3 Sq.m. and 1 Sq.m. of area for car scooter and cycles respectively. The area of drives, aisles and such other provisions required for adequate access shall not be counted as the part of area specified for parking.

(c) Off-street parking space provided shall be not less than the minimum requirements specified in the Table – I for each type of use;

(d) If a vehicle parking space required by these regulations is provided in parking areas by groups of property owners for their manual benefit, the Authority may construe such use of this space as meeting the off-street parking requirements of these regulations.

(e) If off-street vehicle parking space cannot be reasonably provided on the same plot on which the principal use is conducted the Authority may permit such space to be provided on their off-street property, provided such space lies within 400 feet or 12.0 m: of the main entrance to such principal use. Such vehicle parking space shall be deemed to be required open space associated with the permitted use and shall not therefore, be reduced or encroached in any manner;

11.5 REGULATIONS FOR DIFFERENT ZONES

11.5.1. Regulations for different zones regarding minimum size of plots, minimum set-backs of the building or structure from the prescribed street line, maximum coverages etc. shall be as follows-

REGULATIONS FOR DENSITY, COVERAGE, FLOOR AREA RATIO AND SET BACK FOR DIFFERENT ZONES.

11.5.1.1. Residential Use Zone-

(i) Plot size_

| Density | Area in Sq.ft. | Area in Sq.mt. |
|---------|----------------|----------------|
| Low | 5760 | 535.88 |
| Medium | 4320 | 401.76 |
| High | 2880 | 268.84 |

In case of low cost housing for low income group and slum re-housing the minimum plot size could be 1800 sq.ft.

(ii) Plot Coverage

| Density | Maximum Coverage | Maximum F.A.R. |
|---------|------------------|----------------|
| Low | 40.p.c. | 75 |
| Medium | 45.p.c. | 100 |
| High | 50.p.c. | 125 |

(iii) set-back line_

(a) Front set-back- minimum set-back for all types of buildings is 15 ft. unless it is specified for particular street;

(b) Side and Rear set-back- Minimum side set-back and rear set-back for all individual plot are 5ft. and 10 ft. respectively.

11.5.1.2. Government Offices_ In order to achieve architectural composition and intensive use the following provisions are stipulated.

| | |
|--------------------------------|---------|
| Maximum FAR. | 125 p.c |
| Maximum Coverage | 50 p.c. |
| Maximum Covered parking | 10 p.c. |
| Minimum Front set-back | 20 ft. |
| Minimum side and near set-back | 10 ft. |

11.5.1.3. Commercial Use Zone-

| | |
|--|----------------------------|
| (a) Minimum individual plot size for commercial use.... | 1250 sq.ft. (116.25 sq.m.) |
| (b) Maximum F.A.R. | 200 |
| (c) Maximum Ground floor coverage including 5 p.c.for covered garage for cars and cycle | 70 p.c. |
| (d) Coverage for second floor and above | 50 p.c. |
| (e) Minimum front set-back unless it is specified for particular street. | 10 ft. |
| (f) Side set-back | 3 ft. |
| (g) Rear set-back | 10 ft. |
| (h) Set-back for Market complex- Minimum front set-back from Major Road | 30 ft. |
| (i) Side and rear set-back | 10 ft. |
| (j) Maximum coverage including 5 p.c. coverage garages | 50 p.c. |
| (k) Set-back for ware-housing, storage, etc.- | |
| i. F.A.R. | 300 |
| ii. Front | 20 ft. |
| iii. Side | 10 ft. |
| iv. Rear | 15 ft. |
| v. Coverage | 70 p.c. |

11.5.1.4. Industrial Zone-

| Sl.No. | Requirements | Light Industry | Medium Industry |
|--------|----------------------|-----------------------------|-------------------------------|
| 1. | Minimum size of plot | 8,000 sq.ft. (744 sq.m.) | 20,000 sq.ft. (1860 sq.m.) |
| 2. | Minimum set-back | | |
| | Front | 20 ft.(6 m.) | 30 ft.(9 m.) |
| | Side | 10ft.(3m.) | 15 ft.(4.5m.) |
| | Rear | 20 ft.(6 m.) | 20 ft.(6 m.) |
| 3. | Maximum Coverage | 45 p.c. | 55 p.c. |
| 4. | Maximum F.A.R. | 100 | 75 |

N.B. If any structure or building is permitted in the Industrial Zone for human habitation under the provision of these rules the yard condition shall be same as prescribed for high density residential zone.

11.5.2. Regulations for different zones regarding use permitted, uses permissible on appeal to the authority and uses prohibited shall be as follows-

11.5.2.1. Regulations for Residential Zone-

11.5.2.1. A: Use permitted-

- (a) Dwellings;
- (b) Churches, temples, mosques and other places of worship;
- (c) Schools offering general educational courses, community halls, welfare centre, public libraries, art galleries, museums; hostels, for educational institution offering general courses gymnasiums;
- (d) Medical, eye and dental practitioner's clinics;
- (e) Professional offices and incidental to such use not occupying a floor area exceeding 200 sq.ft. for 18.0 sq.metre;
- (f) Club houses not conducted as business, public parks and private parks which are not utilized for business purposes;
- (g) Nurseries and general agriculture, horticulture;
- (h) Accessory uses customarily incidental to any principal use and meeting the requirements of clause 3:4.
- (i) Post offices, Police out-post and fire stations;
- (j) Taxi stands and bus stands, Cycle and Rickshaw stands.

11.5.2.1. B: Use permissible on appeal to the authority-

- (a) Municipal state and Central Government uses but not offices;
- (b) Public utilities;
- (c) Dispensaries for human care except they are meant primarily for mental treatment, convalescent houses sanitarium;
- (d) Philanthropic uses, residential hostels restaurants, cafeteria milk barks, boarding or lodging house in independent buildings;
- (e) Clean industry considering the (performance characteristics) following indicators-(i) Noise (ii) Vibration (iii) Smoke (iv) Dust (v) Odour (vi) Effluent (viii) Employment (ix) Vehicular traffic (x) General nuisance.(and indicative list of industries which could be permitted in residential area subject to the condition it satisfies is given in Appendix).
- (f) Trade or other similar schools not involving any danger of fire explosion, noise, vibration, smoke; dust; odour; heat or other objectionable effluents;
- (g) Branch Offices of banks and local offices of any public authority and telegraph office;
- (h) Golf clubs and green house,
- (i) Market places with only vegetables, fruits, flowers; fish and meat and other connected day to day requirements;
- (j) Theatres, assembly or concert halls, dance and music halls and such other places of entertainment;
- (k) Electric sub-station;
- (l) Neighbourhood shopping centre with goods offered for sale for day to day requirements and the uses permissible under clauses 5 and 5.2.1.C;

11.5.2.1.C: A building or premises with a shop frontage along a street in residential Zones- Permission may be allowed only for the following purposes subject to the conditions that-

- (a) The additional uses permissible hereunder shall be restricted to a depth of 20 ft. or 6.0 metre and only the building in the front portion abutting the street on which the shop line is marked;

- (c) The detailed floor plan for each floor on 8 ft. or 1 metre scale with projections if any, showing the use of every room or portions of the building or structure and full and detail dimensions of the structure;
- (d) One or two sections, as the case may be through the building showing the height of the plinth above and below the ground level and each floor and of the roof over the staircase;
- (e) Such other matters as may be necessary to determine conformance with and provide for the enforcement of these regulations;
- (f) All the plans and sections shall be signed by the applicant;

11.7.2.2. In case of plans pertaining to erection, re-erection or material alteration of any building or structure the Authority may either approve or refuse to approve the plans if it is not in conformity with the Master Plan or Zoning Regulation and shall communicate its decision to the applicant giving the notice within a period of one month from the receipt of the application or such other information as may be called for by the Authority. One copy of the plans shall be returned to the application after the Authority have marked such copy either as approved or disapproved and attested to the same by the signature of the proper official as designated by the Authority. The other two copies of the plans similarly marked, shall be retained by the Authority.

11.7.2.3. For the purpose of obtaining permission for sub-division of any plot of land the applicant shall submit the following plans in triplicate together with necessary statements to the Authority-

- (a) A block plan of such land which shall be drawn to the scale of largest revenue survey map at the time in existence for the locality showing the location of the land, boundaries of the proposed land shown on the map and sufficient description to define the same, location, name and present widths of the adjacent roads and major physical characteristics of the land proposed to be sub-divided, including topography, the location and width of any water course and location of any area subject to inundation or flood and north line;
- (b) A plan of such land which shall be drawn to a suitable scale showing the complete layout of the proposed sub-division including location and widths of all the proposed streets dimension, and uses of all plots, location of all drains, Sewerage and other utilities, building lines permissible and northline;
- (c) Any other items of information which may be required by the Authority from time to time;
- (d) All the plans shall be signed by the applicant.

11.7.2.4. In case of plan pertaining to sub-division of land, the authority may either grant or refuse the approved of the plans or may approve them with such modifications as it may deem fit and thereupon shall communicate its decision to the applicant giving the notice within three months from the date of receipt of the application or such other information as may be called for by the Authority.

11.7.3. SUB-COMMITTEE ON ZONING APPEALS

11.7.3.1. Sub-Committee shall be constituted from out of the members of the Authority by the Chairman and if no Authority is constituted in such cases by the Director of Town and Country Planning which shall be called the “Sub—committee on Zoning appeals”.

11.7.3.2. The Sub-committee shall consist of at least five members. The Chairman of the Authority and the Director of the Town and Country Planning or his nominee and three other members from the local Authorities representing private sector shall be the members subject to the approval of the Government. The Chairman presides over such meetings and the quorum consists of at least three members. The Sub-committee shall meet one a months to consider any case of Zoning Appeals.

Where no Authority is constituted, the Director, of Town and Country Planning or his nominee and Deputy Commission and three other members from the local Authorities or representing private sector or both shall be the members.

The Deputy Commission or in his absence the Director of Town and Country Planning or his nominee shall preside over such meeting.

11.7.3.3. The Chairman and where no Authority is constituted the Director of Town and Country Planning or his nominee shall convene the meeting of the sub-committee on Zoning Appeals.

11.7.3.4. This sub-Committee shall have the power to grant variance with respect to front, rear and side yard or building height and area requirements, if at the time of adoption of these Regulations a plot of land is smaller than the minimum size specified for the land in which it is located, and compliance with front, rear side yard and height and area regulations is not feasible because of topography or other special consideration, the case may be brought before the sub-committee on Zoning appeals. This Sub-committee can grant variance and permission given with such modifications as are necessary but should conform as closely as possible to the requirements specified for zone in which the plot is located. In all, the particulars reasons for the variance should be recorded by the sub-committee.

11.7.3.5. The Sub-committee on Zoning Appeals shall not have the power however to grant use variance. Where a change of use other than that specified in the zone in which the plot is located is permitted.

11.7.3.6. Penalties-Every person, firm body or corporation the commits or knowingly permits a breach of any specified provisions of the UMRANGSO Master Plan and schemes prepared there under and foregoing Zoning Regulations or who neglects or fails to comply with any such provisions, shall be punishable as provided in the Assam Town and Country Planning Act'1959 (as amended).
